Making use of well known paradigms the book will relate Nigerian English as a Second Language variety to other World Englishes. Its chief overall concern however is to provide a detailed descriptive account of the variety seeking to show what is distinctive about it and also in this perspective distinguishing between more educated and less educated usage. After giving a sociolinguistic profile of Nigeria where English today enjoys a more prominent role than ever before it will examine in turn the phonology morpho syntax and lexico semantics of Nigerian English with samples of written texts from the eighteenth century to the present. It will also give a comprehensive summary of academic research carried out in the field over the past fifty years. In this way the book will provide an introduction to the subject for the benefit of scholars and students in universities in many countries and will serve as a useful companion to other books in De Gruyter Mouton's Dialects of English series. **Encyclopedia of Information Science and Technology, Fourth Edition** Khosrow-Pour, D.B.A., Mehdi, 2017-06-20 In recent years our world has experienced a profound shift and progression in available computing and knowledge sharing innovations. Handbook of Research on Nurturing Industrial Economy for Africa's Development Nafukho, Frederick Muyia, Boniface Makulilo, Alexander, 2021-03-19 A robust manufacturing sector is a necessity and a sufficient condition for any country's human and economic development as it creates employment and alleviates poverty During this Fourth Industrial Revolution era there is an urgent need in Africa to optimally utilize the existing resources to support manufacturing or else risk allowing the continent to fall behind in the industrial economy Innovative strategies are

needed that can unlock Africa's manufacturing potential by exploring key areas that may help Africa mature and launch modernized economies that will benefit the developed world's industrial economy. The Handbook of Research on Nurturing Industrial Economy for Africa's Development examines various innovations necessary for Africa's economic development including drivers of the manufacturing economy such as education, agriculture, human capital, science and technological innovations, language, politics and business environments. The book explores strategies to increase Africa's economic diversity, complexity, productivity and ultimately competitiveness and for the continent to realize its manufacturing industrial potential. Further chapters focus on African countries' industrial economies in the African context and facilitating the fulfillment of the Sustainable Development Goals (SDGs) and the African Union's Agenda 2063. This book is a valuable reference tool for government officials, economists, industrialists, practitioners, stakeholders, researchers, academicians and students interested in the industrial economic development of Africa.

The Report: Kenya 2014 Oxford Business Group, 2014-11-13. The country has a strong private sector and received encouraging forecasts of new oil, gas and water reserves which if harnessed appropriately bode well for future growth. While a pending international court case resulting from prior elections provoked a measure of uncertainty, the country's medium to long term economic outlook is robust. With over 40% of the population under the age of 15, Kenya stands to benefit from a significant demographic dividend provided that sufficient jobs can be found when this population bulge enters the workforce. The country has a reasonably sized industrial base, competitive infrastructure and a large agricultural sector, all of which offer opportunities for capital intensive investment.
