Transforming Ethnomusicology Volume II Beverley Diamond, Salwa El-Shawan Castelo-Branco, 2021. For decades, ethnomusicologists across the world have considered how to affect positive change for the communities they work with. Through illuminating case studies and reflections by a diverse array of scholars and practitioners, *Transforming Ethnomusicology* aims to both expand dialogues about social engagement within ethnomusicology and at the same time transform how we understand ethnomusicology as a discipline. The second volume of *Transforming Ethnomusicology* takes as a point of departure the recognition that colonial and environmental damages are grounded in historical and institutional failures to respect the land and its peoples. Featuring Indigenous and other perspectives from Brazil, North America, Australia, Africa and Europe, this volume critically engages with how ethnomusicologists can support marginalized communities in sustaining their musical knowledge and threatened geographies.

Minorities, Scarcity and Conflict Antonio Montañés Jiménez, Camila Ferreira Marinelli, Stavroula Pipyrou, 2025-07-17. This volume places scarcity as a defining aspect of minorities' experience and as a tool to comprehend ongoing and unresolved societal friction and global environmental challenges. Strategies for survival and reproduction of the status quo and aspirational desires for social mobility. The book is an experimental collective intellectual project departing from conventional approaches to scarcity solely as a resource-based economic or demographic concept. Boldly, the book looks at the ways in which disadvantaged social groups navigate their lives through scarcity and how these circumstances are endured, interpreted, accepted or challenged. In a thought-provoking turn, the book makes a novel contribution to minority studies by engaging with scarcity not only concerning resources but also emotion, memory and affect. In analysing scarcity as a multidimensional analytical framework and interrogating it from manifold angles, the book unpacks uncharted ramifications of debates around scarcity and opens

new lines of enquiry The collection will be a valuable resource for academics researchers and policymakers working in the areas of law political anthropology and sociology
