**A6M Zero-sen Aces 1940-42** Nicholas Millman, 2019-04-18 The Mitsubishi A6M Zero sen was Japan's Spitfire In continuous development and operational service from the time of the Sino Japanese war in 1940 to the end of the Pacific War in 1945 it is held in almost mythical awe similar to Britain's legendary fighter aircraft At the time of its operational debut the fighter's design features offered the revolutionary combination of an all round vision canopy

cannon armament and a jettisonable drop tank giving it phenomenal range Together with the flying and tactical proficiency of superbly trained pilots this made the Zero sen a true strategic fighter spearheading Japan s offensive in the Pacific It was also the mount of a plethora of successful and flamboyant naval aces engaged in both sea and land campaigns This volume covers the use of the A6M2 variant from its debut in China to the Solomons Campaign and also tells the story of the A6M2 fighter aces of the 4th and Tainan Kokutai

Hormonal Regulation of Development I J. MacMillan,2012-12-06 This is the first of the set of three volumes in the Encyclopedia of Plant Physiology New Series that will cover the area of the hormonal regulation of plant growth and development The overall plan for the set assumes that this area of plant physiology is sufficiently mature for a review of current knowledge to be organized in terms of unifying principles and processes Reviews in the past have generally treated each class of hormone individually but this set of volumes is subdivided according to the properties common to all classes Such an organization permits the examination of the hypothesis that differing classes of hormones acting according to

common principles are determinants of processes and phases in plant development Also in keeping with this theme a plant hormone is defined as a compound with the properties held in common by the native members of the recognized classes of hormone Current knowledge of the hormonal regulation of plant development is grouped so that the three volumes consider advancing levels of organizational complexity viz molecular and subcellular cells tissues organs and the plant as an organized whole and the plant in relation to its environment The present volume treats the molecular and subcellular aspects of hormones and the processes they regulate Although it deals with chemically distinct classes of hormone this volume stresses properties and modes of studying them that are common to all classes *Ki-61 and Ki-100 Aces* Nicholas

Millman,2015-11-20 This is the story of the elite Japanese Army Air force JAAF aces that flew the Kawasaki Ki 61 Hien Swallow and the Ki 100 Goshikisen in the Pacific Theatre of World War 2 The former codenamed Tony by the allies was a technically excellent aircraft possessing power stability and a good rate of climb differing radically from the usual Japanese philosophy of building light ultra manoeuvrable fighters Its pilots soon realised however that the type was plagued by a number of dangerous mechanical issues Then as the war moved relentlessly closer to Japan s doorstep a desperate expedient innovation to the Ki 61 airframe by fitting it with a radial instead of inline engine resulted in one of the finest fighters of World War 2 the Ki 100 This book uses the latest findings to provide a gripping account of some of the most remarkable and hard pressed fighter pilots of the war It reveals how these men unlike so many of their unfortunate late war colleagues could surprise Allied aircraft in high performance fighters and claim successes in the face of enormous odds **Yokosuka D4Y**

**'Judy' Units** Mark Chambers,2021-09-16 In 1938 the Yokosuka Naval Air Technical Arsenal acting under the requirements issued by the Kaigun Koku Hombu for a Navy Experimental 13 Shi Carrier Borne specification for a dive bomber to replace the venerable Val aboard carriers The resulting D4Y Suisei Comet codenamed Judy by the Allies was initially powered by a licence built German Daimler Benz DB 601 inline engine as used in the Bf 109E Despite making an inauspicious combat debut during the Battle of Midway in June 1942 the Judy eventually proved to be an important asset for the IJNAF during battles in the latter years of the Pacific War Its great successes resulted in the sinking of the escort carrier USS Princeton in an early kamikaze attack of the Philippines and the near sinking of the fleet carrier USS Franklin in a dive bombing attack off Japan While the Judy had an impressive top speed like its predecessor and many other Japanese military aircraft it possessed design shortcomings including inadequate armour protection for its aircrew and no self sealing fuel tanks As a result when pitted against new advanced US Navy fighters suffered horrendous losses During the final months of World War 2 it became apparent that there would be no Japanese victory Acting out of desperation the IJNAF employed the Judy in the dreaded kamikaze role in which it excelled due to its high speed characteristics Most notably the D4Y mounted one of the last combat actions of World War 2 when a flight of 11 Judies personally led by the instigator of the suicide attacks Vice Admiral Matome Ugaki took off on a search mission on August 15 1945 This volume chronicles the action packed wartime exploits of Japan s

finest dive bomber of World War 2
