The Complete Car Cost Guide, 1992 Peter Levy, 1992-03 **When Power Corrupts** Lionel S. Lewis, 2018-04-17 It is
often said that the American academic protected by tenure is free to do pretty much as he or she pleases Lewis argues that
this freedom is largely an illusion Faculty actions are greatly limited by governing boards and the academic administrators
they appoint who control institutional resources Although ostensibly independent professionals in many ways faculty have no
more autonomy than most employees Indeed what power they have derives from faculty student relationships Lay governing
boards ultimately control how money is spent and who spends it This volume addresses issues relating to current debates
over the most appropriate and effective method of academic governance When Power Corrupts details the conflict between
the governing board and administration and faculty at Adelphi University in Garden City New York between 1985 and 1996
This conflict culminated in the removal of the Board of Trustees by the New York State Board of Regents The new trustees in
turn removed the president Although the book focuses on board administration faculty relations at one university its findings
have implications for almost all other institutions of higher learning in the United States Lewis draws on the nearly 8 000
page transcript of the hearings of the Regents These eleven volumes of exhibits include hundreds of documents obtained
from individuals and organizations Lewis suggests that academic administrators have more control of governing boards than
is generally recognized Besides influencing who is asked to join a board administrators may largely determine the
information boards receive and on which they must make decisions When faced with decisions boards often defer to
academic administrators or acquiesce to a campus president's suggestions Because conflict over governance all too often
takes precedence over academic work on American campuses the implications for higher learning are profound Faculty
academic administrators members of governing boards college students and their parents and general readers concerned
about problems relating to American higher education will find this book provocative and informative Lionel S Lewis is
professor emeritus of sociology and adjunct professor of higher education at SUNY Buffalo He has written more than 150
research articles essays and reviews He is the author of Cold War on Campus A Study of the Politics of Organizational
Control and The Cold War and Academic Governance The Lattimore Case at Johns Hopkins *The Car Book*, 1995 Jack
Gillis, 1994 Up to date thorough and highly accessible the 1995 edition of The Car Book contains everything a car buyer
