Catalogue of Ten Thousand Tracts and Pamphlets, and Fifty Thousand Prints and Drawings, Illustrating the Topography and Antiquities of England, Wales, Scotland and Ireland Alfred Russell Smith,1878 Pensions Sinéad Agnew,Paul S Davies,Charles Mitchell,2020-08-20 State pensions are the largest item in the UK social security budget costing 96 7 billion in 2017 18 In the same year 45 6 million people were members of UK occupational pension schemes out of a total population of 66 4 million and the total amount saved into workplace schemes in 2018 was 90 4 billion A consequence of the pensions sector s large size has been that pensions law and social security law have become increasingly specialised areas of practice Yet despite their social and economic importance and the fascinating legal issues they generate pensions have not been the subject of sustained academic attention This book starts to fill this gap by initiating a dialogue between practitioners and scholars working on pensions law and policy groups who have much to learn from one another This title is included in Bloomsbury Professional s Pensions Law online service *Second Series. number of recommendations are made to improve diversity in the judiciary including the Lord Chancellor and Lord Chief Justice should have a duty to encourage diversity support of the application of section 159 of the Equalities Act more opportunities for flexible working and the taking of career breaks encouraging applications from lawyers other than barristers and while the Committee does not currently support the introduction of targets for the number of BAME and women judges it says this should be looked at again in five years The importance of the independence of the judiciary is also stressed opting for the Lord Chancellor's power to reject nominations for posts below the High Court to be transferred to the Lord Chief Justice In order to ensure judges continue to have appropriate independence from Parliament the Committee suggests that a system of formal appraisals should be introduced for judges The Committee also recommends that the retirement age for the most senior judges should be raised to 75 to prevent a loss of talent in the highest courts and allow more time for women and others who have not followed a traditional career path to reach the highest levels of the judiciary

The Evolution from Strict Liability to Fault in the Law of Torts Anthony Gray, 2021-02-25 Gradually the law of tort has shifted away from a strict liability approach to one where fault predominates This book charts important case law documenting this shift It seeks to understand how and why it occurred Given that the *Rylands v Fletcher* decision is typically seen as a prime exemplar of strict liability it focusses particularly on that case as part of the historical development of tort law It considers the intellectual arguments made in favour of strict liability and for fault based liability Having done so it then focusses on particular areas of the law of tort including nuisance defamation and trespass It is somewhat anomalous that though most would view these as examples of torts of strict liability fault considerations have become prominent in their application This presents an uneasy compromise where torts that are notionally strict in nature are infused with fault considerations often through exceptions or defences This book advocates for further development in the law of tort to better reflect a primarily fault based approach to liability at least in the common law This would make the law of tort more coherent
