*Facts and Evidence* Baosheng Zhang, Shijun Tong, Jing Cao, Chuanming Fan, 2021-01-04 This book presents an in depth discussion on two concepts from the field of philosophy and law in order to improve our understanding of the relation between fact and evidence in judicial process Since fact finding is a difficult task for judges proof by evidence has been devised to help them access the truth However in the process of judicial fact finding there is always a gap between fact and truth This book covers a wide range of topics from reflections on the concept of fact evidence and fact finding in the field of philosophy and law to individual case studies As such it is a useful reference resource on the continuing research on the judicial proof process for students and scholars

**The Philosophy of Mathematics Education Today** Paul Ernest, 2018-06-09 This book offers an up to date overview of the research on philosophy of mathematics education one of the most important and relevant areas of theory The contributions analyse question challenge and critique the claims of mathematics education practice policy theory and research offering ways forward for new and better solutions The book poses basic questions including What are our aims of teaching and learning mathematics What is mathematics anyway How is mathematics related to society in the 21st century How do students learn mathematics What have we learnt about mathematics teaching Applied philosophy can help to answer these and other fundamental questions and only through an in depth analysis can the practice of the teaching and learning of mathematics be improved The book addresses important themes such as critical mathematics education the traditional role of mathematics in schools during the current unprecedented political social and environmental crises and the way in which the teaching and learning of mathematics can better serve social justice and make the world a better place for the future

**Science for the New Zealand Curriculum Year 11** Donald Reid, Geoffrey Groves, Colin Price, Ian Tennant, 2011-04 Science for the New Zealand Curriculum Year 11 continues from the Year 9 and 10 titles in the series to cover Level 6 of the Science Learning Area and the realigned NCEA Level 1 Achieving Standards Like the earlier books the Nature of Science strand is the overarching theme through which the textbook aims to bring to students the story of science as a human endeavour relating to our everyday lives and the world The text and its workbook are written by teachers with many years experience of preparing students for high achievement in the NCEA The books offer a range of activities that encourage students to think like a scientist and understand investigate communicate participate and contribute to the world of science

*Unified Financial Analysis* Willi Brammertz, Ioannis Akkizidis, Wolfgang Breyman, Rami Entin, Marco Rustmann, 2011-11-04 Unified Financial Analysis arrives at the right time in the midst of the current financial crisis where the call for better and more efficient financial control cannot be overstated The book argues that from a technical perspective there is no need for more but for better and more efficiently organized information The title demonstrates that it is possible with a single but well organized set of information and algorithms to derive all types of financial analysis This reaches far beyond classical risk and return or profitability management spanning

all risk categories all valuation techniques local GAAP IFRS full mark to market and so on and static historic and dynamic analysis just to name the most important dimensions The dedication of a complete section to dynamic analysis which is based on a going concern view is unique contrasting with the static liquidation based view prevalent today in banks The commonly applied arbitrage free paradigm which is too narrow is expanded to real world market models The title starts with a brief history of the evolution of financial analysis to create the current industry structure with the organisation of many banks following a strict silo structure and finishes with suggestions for the way forward from the current financial turmoil Throughout the book the authors advocate the adoption of a unified financial language that could also be the basis for a new regulatory approach They argue that such a language is indispensable if the next regulatory wave which is surely to come should not end in an expensive regulatory chaos Unified Financial Analysis will be of value to CEOs and CFOs in banking and insurance risk and asset and liability managers regulators and compliance officers students of Finance or Economics or anyone with a stake in the finance industry

**Caesar's Last Breath** Sam Kean, 2017-07-18 The Guardian's Best Science Book of 2017 the fascinating science and history of the air we breathe It's invisible It's ever present Without it you would die in minutes And it has an epic story to tell In Caesar's Last Breath New York Times bestselling author Sam Kean takes us on a journey through the periodic table around the globe and across time to tell the story of the air we breathe which it turns out is also the story of earth and our existence on it With every breath you literally inhale the history of the world On the ides of March 44 BC Julius Caesar died of stab wounds on the Senate floor but the story of his last breath is still unfolding in fact you're probably inhaling some of it now Of the sextillions of molecules entering or leaving your lungs at this moment some might well bear traces of Cleopatra's perfumes German mustard gas particles exhaled by dinosaurs or emitted by atomic bombs even remnants of stardust from the universe's creation Tracing the origins and ingredients of our atmosphere Kean reveals how the alchemy of air reshaped our continents steered human

progress powered revolutions and continues to influence everything we do Along the way we ll swim with radioactive pigs witness the most important chemical reactions humans have discovered and join the crowd at the Moulin Rouge for some of the crudest performance art of all time Lively witty and filled with the astounding science of ordinary life Caesar s Last Breath illuminates the science stories swirling around us every second **The Electrical Journal** ,1907 **Improving Urban Science Education** Kenneth Tobin,Rowhea Elmesky,Gale Seiler,2005-04-07 Many would argue that the state of urban science education has been static for the past several decades and that there is little to learn from it Rather than accepting this deficit perspective Improving Urban Science Education strives to recognize and understand the successes that exist there by systematically documenting seven years of research into issues salient to teaching and learning in urban high school science classes Grounded in the post structuralism of William Sewell and brought to life through the experiences of different students teachers and school settings in Philadelphia this book shows how teachers and students can work together to enact meaningful science education when social and cultural differences as well as inappropriate curricula often make the challenges seem insurmountable Chapters contain rich images of urban youth and each strives to offer insights into problems and suggestions for resolving them Most significant in spite of the challenges the research offers hope and shows that fresh approaches to teaching and learning can lead students some who have already been pronounced academic even societal failures to becoming avid and deep learners of science **Scientific and Technical Aerospace Reports** ,1980-04
