

AP World History Unit 1-3 Study Guide

Unit 1: Transition from Paleolithic to Neolithic

Unit 1-2: Early and Classical Civilization

Unit 3: Regional and Transregional Interactions / Post Classical Civilization

1. What was Europe like intellectually after the collapse of the Roman Empire and prior to the year 1000 or so?
2. What are the general PERSIA characteristics of the transition from hunting, foraging, and gathering to settled, agricultural society?
3. All of the early core foundational societies (the "river civs") had what in common? What are some examples of things they didn't have in common?
4. Who was connected with whom on the Silk Roads? Which societies traded which items in exchange for what?
5. What were some of the new crops that spread to Africa, the Middle East, and Europe during the period 1000-1450?
6. Who carried on the glory of the Roman Empire for another 1000 years after the Roman collapse of 476 C.E.?
7. How would you compare the political systems and structures of the post classical world? Who was similar and different to one another politically?
8. What's the central idea behind Confucianism?
9. What were the motivating factors for the average Crusaders? What did they hope to "get" for participating in this holy pilgrimage?
10. What was scholasticism? How and why did this reflect the growing influence of Christianity (Roman Catholicism) in Western Europe during this period?
11. Why did the Ming Dynasty suddenly halt their epic naval exploration in the early 1400s (remember Zheng He and his treasure junks?)?
12. Which of the post classical societies did Russia have the closest connection with? Why did they have such a close connection with them and how were these ties forged?
13. Which two or three societies of the post classical world had the closest thing that resembled a "golden age"? What were the defining features of each of these "golden ages"? By the way, what's a "golden age" and when does it usually happen?
14. How are certain religions we've studied similar and different in the way they've developed and spread? Which ones spread where, when, and to what places? See your religions graphic organizer to make some of these comparisons.
15. Describe and explain the general PERSIA characteristics and features of Paleolithic society compared to Neolithic society. Refer to the Paleolithic vs. Neolithic graphic organizer.
16. What are the key features of the culture, politics, and economics of the core/foundational civilizations or "civilization 1.0" that we've studied? Is there a pattern? (Mesopotamia/Sumerian, Egyptian, Shang/Zhou, Harappa/Mohenjo-daro, Olmec/Mayan/Chavin):
17. What are the key features/characteristics/founders/texts of the South and East Asian world religions we've studied? How would you describe their political, social, economic, and cultural influence on the various societies they impacted? Refer to your Asian religions graphic organizer.
18. What are the origins and key features of legal codes across time and societies, including important milestones and examples in codification of legal codes.
19. If you were asked to match the key intellectual and technological developments with early and classical societies we've studied in Unit 1, 2, and 3, what would some good illustrative examples be ... and why? Do this for each of the civilizations we've studied in all the units up to this point. The Romans were known for this ... The Chinese were known for this, etc.
20. Describe the "collapse" pattern of civilization, with particular focus on the classical societies of Unit 1 (Rome, Greece, Mauryan/Gupta India, Qin/Han China). You should be able to illustrate this pattern of both internal and external pressures in multiple societies by citing key examples from our study.
21. What are the significant demographic (health, size, and movement of populations) trends in Units 1-3? Consider the major spikes up and down in general size of populations, major movements, and the reasons behind it.
22. What is the significance of the Silk Roads in the first 3 units of study? Which societies were directly linked by it? What were some of the major products, pathogens, and cultural elements travelling on it from different places?
