not allow you the time needed to learn the test material The sooner you learn the format of the exam the more comfortable you will be when you take the exam

### FORMAT OF THE SAT II CHEMISTRY

The SAT II Chemistry is a one hour exam consisting of 85 multiple choice questions The first part of the exam consists of classification questions This question type presents a list of statements or questions that you must match up with a group of choices lettered A through E Each choice may be used once more than once or not at all The exam then shifts to relationship analysis questions which you will answer in a specially numbered section of your answer sheet You will have to determine if each of two statements is true or false and if the second statement is a correct explanation of the first The last section is composed strictly of multiple choice questions with choices lettered A through E

### Material Tested

The following chart summarizes the distribution of topics covered on the SAT II Chemistry Subject Test

Topic	Percentage	Number of Questions
Atomic	however do not review too much at any one time	
Concentrate on one problem area at a time by reviewing the questions and explanations and by studying our review until you are confident you completely understand the material		
Keep track of your scores By doing so you will be able to gauge your progress and discover general weaknesses in particular sections You should carefully study the reviews that cover your areas of difficulty as this will build your skills in those areas		

### TEST TAKING TIPS

Although you may be unfamiliar with standardized tests such as the SAT II Chemistry Subject Test there are many ways to acquaint yourself with this type of examination and help alleviate your test taking anxieties Become comfortable with the format of the exam When you are practicing to take the SAT II Chemistry Subject Test simulate the conditions under which you will be taking the actual test Stay calm and pace yourself After simulating the test only a couple of times you will boost your chances of doing well and you will be able to sit down for the actual exam with much more confidence Know the directions and format for each section of the test Familiarizing yourself with the directions and format of the exam will not only save you time but will also ensure that you are familiar enough with the SAT II Chemistry Subject Test to avoid nervousness and the mistakes caused by being nervous Do your scratchwork in the margins of the test booklet You will not be given scrap paper during the exam and you may not perform scratchwork on your answer sheet Space is provided in your test booklet to do any necessary work or draw diagrams If you are unsure of an answer guess However if you do guess guess wisely Use the process of elimination by going through each answer to a question and ruling out as many of the answer choices as possible By eliminating three answer choices you give yourself a fifty fifty chance of answering correctly since there will only be two choices left from which to make your guess Mark your answers in the appropriate spaces on the answer sheet Fill in the oval that corresponds to your answer darkly completely and neatly You can change your answer but remember to completely erase your old answer Any stray lines or unnecessary marks may cause the machine to score your answer incorrectly When you have finished working on a section you may want to go back and check to make sure your answers correspond to the correct questions Marking one answer in the wrong space will throw off the rest of your test whether it is graded by machine or by hand You don't have to

answer every question You are not penalized if you do not answer every question The only penalty results from answering a question incorrectly Try to use the guessing strategy but if you are truly stumped by a question remember that you do not have to answer it Work quickly and steadily You have a limited amount of time to work on each section so you need to work quickly and steadily Avoid focusing on one problem for too long Before the Test Make sure you know where your test center is well in advance of your test day so you do not get lost on the day of the test On the night before the test gather together the materials you will need the next day Your admission ticket Two forms of identification e g driver s license student identification card or current alien registration card Two No 2 pencils with erasers Directions to the test center A watch if you wish but not one that makes noise as it may disturb other test takers On the day of the test you should wake up early after a good night s rest and have breakfast Dress comfortably so that you are not distracted by being too hot or too cold while taking the test Also plan to arrive at the test center early This will allow you to collect your thoughts and relax before the test and will also spare you the stress of being late If you arrive after the test begins you will not be admitted to the test center and you will not receive a refund During the Test When you arrive at the test center try to find a seat where you feel most comfortable Follow all the rules and instructions given by the test supervisor If you do not you risk being dismissed from the test and having your scores canceled Once all the test materials are passed out the test instructor will give you directions for filling out your answer sheet Fill this sheet out carefully since this information will appear on your score report After the Test When you have completed the SAT II Chemistry Subject Test you may hand in your test materials and leave Then go home and relax When Will I Receive My Score Report and What Will It Look Like You should receive your score report about five weeks after you take the test This report will include your scores percentile ranks and interpretive information

**THE CHINESE-AMERICAN METHOD** Linda Hu; John X. Wang, 2013-01-24 Raising a child is challenging for many parents especially for a new immigrant family For those parents they not only have to face the challenges of integrating themselves into a new environment but they also need to handle the conflicts coming from two cultural backgrounds Like many Chinese Americans the authors inherited the traditional Chinese culture Yet they also opened their minds and embraced their new culture Through the collisions of these two cultures they developed a unique parenting strategy a combination of the best of both worlds to educate their children This approach offered them a cutting edge in developing their children to be among the most competitive As they raised their children they held parties to build their children s social groups used teamwork to create a harmonious family strengthening the family bonds helped their children excel in academic competitions taught their children how to be rigorous and strive for perfection inspired their children to explore innovative strategies to overcome obstacles developed their children s creativity leadership and initiative encouraged their children to be involved in the community and gave their children freedom to develop their individual personalities and discover their full potentials The authors believe that their story will be beneficial to other parents and also provide a new

perspective of Chinese American families for mainstream Americans      McGraw-Hill Education 6 SAT Practice Tests, Fifth Edition Christopher Black, Mark Anestis, 2023-01-13 Get the practice you need to achieve your highest score on the SAT We ve put all of our proven expertise into McGraw Hill s 6 SAT Practice Tests Fifth Edition to make sure you get enough practice and are ready for this exam Written by renowned test prep experts and packed with 6 full length practice SATs with complete answer explanations this guide will boost your exam taking confidence and help you increase your scores 6 full length sample practice tests closely simulating the official SAT Complete in depth explanatory answers to all the questions Essential reasoning skills applied to practice tests Intensive practice and repeated drill on concepts and questions      *The SAT I for Dummies* Suzee Vlk, 1997 Sheer Academic Torture or Sinister Adolescent Trial No matter what the folks at the College Entrance Examination Board claim we know what SAT really stands for And love them as if or hate them the rational response you ve got to take them if you want to get into most colleges Fully revised to reflect the SAT s new focus the fifth edition of *The SAT I For Dummies* is the painless easy way to master the test and get the best possible score Suzee Vlk a test prep guru with nearly thirty years of coaching experience supplies you with The most up to date sample questions Two full practice tests Guidance on to approach each different type of question Tips on how to avoid test tricks and traps Relaxation techniques that help you stay calm and focused Techniques for beating the clock Comprehensive reviews of the basics in all categories With Suzee as your guide you ll discover how to outsmart the SAT You ll identify the point behind each of the various styles and types of questions and understand what each is meant to test And you ll gain the confidence you need to Have the last word on sentence completions Infer the meaning in every critical reading question Take the full measure of the geometry questions Make the Xs Ys and Zs dance to your tune on the algebra questions Hand in an incomparable performance on quantitative comparisons Know the what where when who and how many of every problem solving question Get *The SAT I For Dummies* 5 th Edition and rack up the points you need to enter the college of your choice
