Words That Work Dr. Frank Luntz, 2007-01-02 The nation's premier communications expert shares his wisdom on how the words we choose can change the course of business, politics, and of life in this country. In *Words That Work*, Luntz offers a behind-the-scenes look at how the tactical use of words and phrases affects what we buy, who we vote for, and even what we believe in. With chapters like *The Ten Rules of Successful Communication* and *The 21 Words and Phrases for the 21st Century*, he examines how choosing the right words is essential. Nobody is in a better position to explain than Frank Luntz. He has used his knowledge of words to help more than two dozen Fortune 500 companies grow. Hell tell us why Rupert Murdoch's six billion dollar decision to buy DirectTV was smart because satellite was more cutting edge than digital cable, and why pharmaceutical companies transitioned their message from treatment to prevention and wellness. If you ever wanted to learn how to talk your way out of a traffic ticket or talk your way into a raise, this book's for you.

Reading Plato's Dialogues to Enhance Learning and Inquiry Mason Marshall, 2020-12-29 This scholarly volume proposes protreptic as a radically new way of reading Plato's dialogues, leading to enhanced student engagement in learning and inquiry. Through analysis of Platonic dialogues including *Crito*, *Euthyphro*, *Meno*, and *Republic*, the text highlights Socrates' ways of fostering and encouraging self-examination and conscientious reflection. By focusing his work on Socrates' use of protreptic, Marshall proposes a practical approach to reading Plato, illustrating how his writings can be used to enhance intrinsic motivation amongst students and help them develop the thinking skills required for democratic and civic engagement. This engaging volume will be of interest to doctoral students, researchers, and scholars concerned with Plato's dialogues, the philosophy of education, and ancient philosophy more broadly, as well as postgraduate students interested in moral and values education research.

Zinnophobia David Detmer, 2018-09-28 *Zinnophobia* offers an extended defense of the work of radical historian Howard Zinn, author of the bestselling *A People's History of the United States*, against his many critics. It includes a discussion of the attempt to ban Zinn's book from Indiana classrooms, a brief summary of Zinn's life and work, an analysis of Zinn's theorizing about bias and objectivity in history, and a detailed response to twenty-five of Zinn's most hostile critics, many of whom are or were eminent historians. A major contribution to bringing Zinn's great contributions to even broader public attention and exposing features of intellectual and political culture that are of no little interest.

Plato Robin Barrow,2014-10-23 Plato was the first and most formidable thinker to recognise that education is a fiercely contested concept and to point out what great social and personal issues are at stake in education He articulated a compelling argument for a liberal arts education as something peculiarly befitting free and autonomous beings He understood the centrality of education for human well being and flourishing And he was the first to set forth a systematic theory of education In this text Robin Barrow concisely and convincingly establishes the continuing relevance of Plato s views to debates on such issues as nature vs nurture or genetic inheritance vs social background philosophy vs sophistry or the pursuit of true understanding vs the pursuit of reputation or perhaps simply truth vs politics and the media Questions concerning the fair distribution of education moral education value judgments and human nature are explored along with themes more specifically associated with Plato s philosophy such as the Theory of Ideas The whole is embedded in a clearly presented account of the historical background to Plato s thought
