Mallea,2018-10-15

Founded as a port at the confluence of two great rivers Kansas City has the waters of the Missouri running through its bloodstream threading expressways delivering drinking water carrying traffic and sewage and emerging most visibly in the city's celebrated fountains Despite or perhaps because of the river's ubiquity the complex and critical nature of its presence can be hard to understand which is precisely why Amalia Mallea's enlightening book is so essential Moving from the city's center to the outer limits of the metropolitan area *A River in the City of Fountains* offers a clear view of the reach and intricacies of the Missouri River's connection to life in Kansas City The history of this connection is one of science and industry working sometimes at cross purposes to bend the river to the needs of commerce and public health It is a story populated with heroes and villains visionaries and robber barons scientists and civil engineers politicians and activists all with schemes and plans and far reaching ideas about what and whose demands the power of the Missouri should serve And so inevitably it is a story of disparities a story of from one flood to the next the haves staking out higher ground leaving the have nots to the perils of low lying land But what the book also shows us is a slow awakening to the ways in which all those vying for the river's favor are inextricably connected by its course here we see finally a growing awareness of the river's essential role in the health and welfare of the whole urban environment In the end all citizens of Kansas City are both upstream and downstream all are equally dependent on the health of the river What this book helps us see is at last as much the city in the river as the river in the city

#### **Global Status Report on Road Safety 2018** World Health

Organization,2019-01-10 The Global status report on road safety 2018 launched by WHO in December 2018 highlights that the number of annual road traffic deaths has reached 1.35 million Road traffic injuries are now the leading killer of people aged 5-29 years The burden is disproportionately borne by pedestrians cyclists and motorcyclists in particular those living in developing countries The report suggests that the price paid for mobility is too high especially because proven measures exist Drastic action is needed to put these measures in place to meet any future global target that might be set and save lives

**Rules of the Road** Spencer Headworth,2023-08-22 A thorough and engaging look at an unexpected driver of changes in the American criminal justice system Driving is an unavoidable part of life in the United States Even those who don't drive much likely know someone who does More than just a simple method of getting from point A to point B however driving has been a significant influence on the United States culture economy politics and its criminal justice system *Rules of the Road* tracks the history of the car alongside the history of crime and criminal justice in the United States demonstrating how the quick and numerous developments in criminal law corresponded to the steadily rising prominence and now established supremacy of the automobile Spencer Headworth brings together research from sociology psychology criminology political science legal studies and histories of technology and law in illustrating legal responses to changing technological and social circumstances *Rules of the Road* opens by exploring the early 20th century beginnings of the relationship between criminal law and automobility before moving to the direct impact of the automobile on prosecutorial and criminal justice practices in

the latter half of the 20th century Finally Headworth looks to recent debates and issues in modern day criminal justice to consider what this might presage for the future Using a seemingly mundane aspect of daily life as its investigative lens this creative imaginative and thoroughly researched book provides a fresh perspective on the transformations of the U S criminal justice system The Road to Hell Elizabeth Stanley,2016-08-21 From the 1950s to the 1980s the New Zealand government took more than 100 000 children from experiences of strife neglect poverty or family violence and placed them under state care in residential facilities In homes like Epuni and Kingslea Kohitere and Allendale the state took over as parent The state failed Within institutions children faced abysmal conditions limited education and social isolation They endured physical sexual and psychological violence as well as secure cells knock out sedatives and electro convulsive therapy This book tells the story of 105 New Zealanders who experienced this mass institutionalisation Informed by thousands of pages of Child Welfare accounts letters health reports legal statements as well as interviews Stanley tells the children s story growing up in homes characterized by violence and neglect removal into the State s care network daily life in the institutions violence and punishment and the legacy of this treatment for victims today The state masqueraded as a good parent but its violence and negligence made things worse for children This book is a moving account of the experiences of those placed into state care and a powerful call for redress and change Engineering Standards for Forensic Application Richard W.
