desperate race against time around the globe as he confronts the traumas of his past and unravels a deadly conspiracy that threatens the highest levels of American democracy **Shoemaker by Levy** David H. Levy, 2021-02-09 It was a lucky twist of fate when in the early 1980s David Levy a writer and amateur astronomer joined up with the famous scientist Eugene Shoemaker and his wife Carolyn to search for comets from an observation post on Palomar Mountain in Southern California Their collaboration would lead to the 1993 discovery of the most remarkable comet ever recorded Shoemaker Levy 9 with its several nuclei five tails and two sheets of debris spread out in its orbit plane A year later Levy would be by the Shoemakers side again when their comet ended its four billion year long journey through the solar system and collided with Jupiter in the most stunning astronomical display of the century Not only did this collision revolutionize our understanding of the history of the solar system but it also offered a spectacular confirmation of one scientist s life work As a close friend and colleague of Shoemaker who died in 1997 at the age of 69 Levy offers a uniquely insightful account of his life and the way it has shaped our thinking about the universe Early in his training as a geologist Shoemaker suspected that it wasn t volcanic activity but rather collisions with comets and asteroids that created most of the craters on the moon and most other bodies in the solar system Convincing the scientific community of the plausibility of impact theory and revealing its power for penetrating mysteries such as the extinction of the dinosaurs and the timing of the Earth s eventual demise became Shoemaker s mission Through conversations with Shoemaker and his family Levy reconstructs the journey that began with a young geologist s serious desire to go to the moon in the late 1940s Sent by the government to find a way to harvest plutonium Shoemaker instead found evidence in desert craters for what became his impact theory While he never became an astronaut he did become the first geologist hired by NASA and subsequently set the research agenda for the first manned lunar landing After a series of victories and setbacks for Shoemaker the collision of Shoemaker Levy 9 with Jupiter provided the most convincing proof to date of the role of impacts in our solar system Levy s explanation of the scientific reasoning that guided Shoemaker in his career up to this dramatic point as well as his personal portrait of a man who found white water rafting to be an easy way to relax sets these fascinating events in a human scale This biography shows what Shoemaker s legacy will be for our understanding of the story of the Earth well into the twenty first century *East Asian Regionalism from a Legal Perspective* Tamio Nakamura, 2009-06-08 Plenty has been written about the political and economical aspects of regionalism but the legal perspective has been neglected *East Asian Regionalism From a Legal Perspective* is unique in synthesizing legal economic and political analyses In the first part the book investigates the current features of regionalism from a comparative perspective looking at economic and currency cooperation and comparing Asian regionalism with Europe and Latin America In the second part the contributors go on to look at the present legal features of regionalism covering institutional frameworks trade diversity and regional integration The third part of the book is truly unique in proposing an essential groundwork for the institutionalisation of an East Asian Community It conceives a draft East Asian Charter an essential

document that distils what East Asian nations have achieved and also includes integral principles and fundamental rules for future cooperation among countries and peoples in the region This book will be of interest to graduates and academics interested in regionalism international relations international law and Asian studies *Africa Overland* Siân Pritchard-Jones,Bob Gibbons,2009 Be vigilant when driving through Africa camels are careless when crossing the road and women carrying waterpots are little more watchful warn the authors of this fifth edition of Africa Overland They also give updated information on each country s political and security situation Angola Sierra Leone and Liberia are on the up since this guide s last edition security in Western Sudan and Eastern Chad has turned sour provide an expanded Route Outlines section including information on border crossings and offer revised recommendations on vehicles including practical coverage on buying a vehicle maintenance and driving *Pakistan & Gulf Economist* ,1999-05 Consumer News United States.
