Caring Matters Sarah W. Fraser, 2005-01-05 This book is about how healthcare providers need to remember that at their heart they are healing individuals and organisations And to do this effectively they need to be aware of how the people working within the organisations behave Behaviours are the tangible manifestations of organisation culture People who continually espouse how important it is to get organisational culture right sometimes ignore an essential truth that behaviour and culture are synonymous Consequently an organisation in which individuals are behaving in the same way today as they did yesterday hasn t changed its culture And if cultural transformation is our goal we have no choice but to focus on changing behaviour Why do we stress no choice As we shall demonstrate throughout this book behaving well towards each other is not just to make us feel good although that is important enough Otherwise there is little reason to come to work except to earn a living Behaviour affects performance the number of errors the costs of healthcare and more So managing behaviour is not a soft option it affects hard outcomes and is hard to do We are not simply talking about feeling better about each other We are talking about changing the way each and every one of us behaves towards each other We need to remember that we are in the caring trade and that begins with caring for each other

Seeing, Knowing, Being John Greer, 2012-02-15 From ancient Taoist sages and Sufi mystics to Christian contemplatives and contemporary Zen masters Seeing Knowing Being explores the profound truth behind all the world s mystic traditions Living a spiritual life has nothing to do with fixing ourselves It is simply a matter of awakening to what we already are The real work of self discovery and the answer to our suffering emptiness and loss of meaning is learning to see in a different way The mystical adventure is all in the seeing says John Greer From departure to arrival nothing changes but our eyes But the process isn t that simple In this all embracing work that is destined to become a classic Greer artfully traces the steps and stages of the delicate process of awakening He shows how we can move from society s hand me down version of reality to the wonder of our true nature from conceptual habitual patterns of thinking to knowing the truth by being Like a master artist who captures an image and stirs something deep inside of us Greer also highlights

nearly one hundred evocative metaphors as varied and colorful as the sages themselves to kindle your imagination and spark your intuition to shift your perspective and shake you into an awareness that no amount of explanation can What Greer shows with great wisdom and compassion is that when you put aside the map of the mind you can follow the compass of your heart You can move through the details of life going to work raising a family throwing out the garbage and still experience the wonders and oneness of life with deep reverence gratitude and joy Books often describe journeys Seeing Knowing Being actually takes you on one A profound expedition into the true nature of life MATTHEW FLICKSTEIN author and producer of the award winning film With One Voice **this bridge we call home** Gloria Anzaldúa,AnaLouise Keating,2013-10-18 More than twenty years after the ground breaking anthology This Bridge Called My Back called upon feminists to envision new forms of communities and practices Gloria E Anzald a and AnaLouise Keating have painstakingly assembled a new collection of over eighty original writings that offers a bold new vision of women of color consciousness for the twenty first century Written by women and men both of color and white this bridge we call home will challenge readers to rethink existing categories and invent new individual and collective identities **12 Cliches of Selling (and Why They Work)** Barry Farber,2001-01-01 Examines the fundamentals of selling through twelve sales maxims that cover the basic principles of sales success and includes advice and anecdotes from top sales representatives and entrepreneurs
