Matters covered include the basic export import sales contract, the use of price delivery terms to allocate both price and risk, the application and use of the United Nations Sales Convention (CISG), events which may excuse the nonperformance of a contract obligation, when and how to opt in or out of the CISG, financing the export sale with a commercial letter of credit, a basic understanding of the WTO trade regulation system, the regulation of importation including tariff classification and valuation, the regulation of exportation including licensing and extraterritorial application of export laws, U.S. and EU Rules affecting the professional liability of international transactions lawyers, planning for the resolution of disputes in international transactions, a comparative law understanding, jurisdiction, applicable law, and judgments recognition issues affecting choices between arbitration and litigation of disputes, drafting choice of forum clauses, drafting choice of law clauses, understanding rules regarding judgments, obligations stated in foreign currencies, recent multilateral efforts to harmonize the law on jurisdiction and judgments recognition, dealing with and avoiding claims of sovereign immunity, and act of state operating abroad through employees, agents, and distributors, anti bribery laws, and the need for compliance programs and contract restrictions, expropriation, political risk, and how to use insurance and contract terms to deal with them, investor state contracts, antitrust laws, and their extraterritorial application. Each chapter is designed to help the reader move from the simple cross border sales transaction through steps which increase both activity abroad and the laws and regulations that may bring with them additional risks to be identified and allocated. A separate documents volume provides virtually all current primary source material on the law of international business transactions. There are many guides to the conduct of international business transactions, but none organized as clearly as this.
