3COM BASELINE PLUS SWITCH 2226

Enterprise-class, Layer 2 10/100 switch for small and medium businesses, with advanced features for network control and flexibility.

3Com Baseline Plus Switch 2226

OVERVIEW

The "smart" voice-ready 3Com® Baseline Plus Switch 2226 is a web-managed Layer 2 10/100 Ethernet switch that delivers enterprise-class features, customized and priced for small- and mid-sized organizations. With an easy-to-use switch interface and advanced features (VLANs, IEEE 802.1X authentication and Rapid Spanning Tree), twenty-four 10/100 and two dual-purpose Gigabit ports, the Baseline Plus Switch 2226 is the most cost-effective way to provide a converged network.

KEY BENEFITS

LAYER 2 SWITCHING with advanced features

The Baseline Plus Switch 2226 has twenty-four 10/100 ports and two dual-purpose Gigabit ports (copper or SFP-based fiber) to connect to high-performance computers, servers, or core network backbones.

The switch provides non-blocking performance—all ports perform at wirespeed which helps to eliminate network traffic bottlenecks. Manual link aggregation allows ports to be grouped together to form an ultra-high-bandwidth connection that greatly expands bandwidth capacity to the network core.

This "smart" switch has the features that help build a voice-ready network, with support for auto-voice VLAN, SNMP-based management, IGMP snooping and query and IEEE 802.1X for strengthening security.

The Baseline Plus Switch 2226 also supports Spanning Tree and Rapid Spanning Tree, traffic prioritization, priority queuing and VLANs. These switching features ensure optimal use of available bandwidth as traffic flow is directed according to the needs of the business.

NO SWITCH SETUP REQUIRED

This Baseline Plus switch is operational straight out-of-the-box; as long as default settings are acceptable, there is no need to configure the switch. If desired, the switch can be configured using a web browser or SNMP management software.

SMART BROWSER-BASED USER INTERFACE

For networks that require more control, the switch management interface allows even novice users to quickly and confidently configure the switch during initial setup or normal operation.

In addition, the web interface features individual port-traffic monitoring (port mirroring) and a unique, quick-glance switch status review. A cable diagnostic tool lets users troubleshoot basic connectivity problems via the web management interface further simplifying network installation.

THREE YEAR HARDWARE WARRANTY

This switch comes with a Three Year Limited Hardware Warranty. Also provided is Advanced Hardware Replacement, with next business day shipment available in most regions.

SERVICE

3Com products are backed by 3Com Global Services and authorized partners with demonstrated expertise in network assessment, implementation and maintenance. Ask about which 3Com Network Health Check, installation services and maintenance service packages are available in your area.
