Things to Make and Do in the Fourth Dimension Matt Parker, 2014-12-02 A book from the stand up mathematician that makes math fun again Math is boring says the mathematician and comedian Matt Parker Part of the problem may be the way the subject is taught but it s also true that we all to a greater or lesser extent find math difficult and counterintuitive

This counterintuitiveness is actually part of the point argues Parker the extraordinary thing about math is that it allows us to access logic and ideas beyond what our brains can instinctively do through its logical tools we are able to reach beyond our innate abilities and grasp more and more abstract concepts In the absorbing and exhilarating *Things to Make and Do in the Fourth Dimension* Parker sets out to convince his readers to revisit the very math that put them off the subject as fourteen year olds Starting with the foundations of math familiar from school numbers geometry and algebra he reveals how it is possible to climb all the way up to the topology and to four dimensional shapes and from there to infinity and slightly beyond Both playful and sophisticated *Things to Make and Do in the Fourth Dimension* is filled with captivating games and puzzles a buffet of optional hands on activities that entices us to take pleasure in math that is normally only available to those studying at a university level *Things to Make and Do in the Fourth Dimension* invites us to re learn much of what we missed in school and this time to be utterly enthralled by it **NSW Targeting Maths** Judy Tertini,2002 **MathsWiz Book 6** ANUBHUTI GANGAL, MathsWiz a series of nine textbooks for KG to Class 8 is a course based on the National Curriculum Framework and the guidelines provided therein The content is student centred and activity based laying the utmost emphasis on developing problem solving skills and encouraging the child to think creatively and work independently **Maths Problem Solving Year 6** Catherine Yemm,2012-11-30 Maths Problem Solving Year 6 is the sixth book in the Maths Problem Solving series The books have been written for teachers to use during the numeracy lesson They cover the solving problem objectives from the numeracy framework This book contains three chapters Making decisions Reasoning about numbers or shapes and Problems involving real life money or measures The books are designed in such a way that each section has six stages of questions to be worked through Every stage is split into three levels for example 1a 1b or 1c based on achievement Each corresponding question from these levels follow the same line of questioning so that when the teacher talks about a certain question the solution process is the same for each level but the complexity of the sum varies **Primary Maths Teacher Resource Book 1** Michelle Weeks,2011-12-30 Active Maths Teacher Resource 1 contains the teaching framework It describes a range of classroom activities and practice provides additional worksheets and is cross referenced to the student activity pages the Quality Teaching Framework and relevant cards in the Maths in a Box series *Maths Problem Solving Year 4* Catherine Yemm,2012-11-28 Maths Problem Solving Year 4 is the fourth of six books in the Maths Problem Solving series The books have been written for teachers to use during the numeracy lesson They cover the solving problem objectives from the numeracy framework This book contains three chapters Making decisions Reasoning about numbers or shapes and Problems involving real life money or measures The books are designed in such a way that each section has six stages of questions to be worked through Every stage is split into three levels for example 1a 1b or 1c based on achievement Each corresponding question from these levels follow the same line of questioning so that when the teacher talks about a certain question the solution process is the same for each level but the complexity of the sum varies I Love HandsOn Math
