not the realization of the resurrection after death This work is a part of our basic source book called A Journey of Discovery for an Extraordinary Treasure Risale i Nur The Treatise of Light Explanatory Notes upon which our Journeys of Discovery Risale i Nur Training Program is constructed and it is the proof of the Existence of Resurrection and the Eternal Life which is the Fifth Truth of the Six Truths dealt with in the second main part of that book which is called Proving the Existence of the Treasure of Faith with Evidence We have to state and admit about this Book that is Explanatory Text for Tenth Word the following sincerely although we did not have any idea about what to write before explanatory notes came into the being every time without any exception we were astonished by the resultant texts and realized that we had never understood these issues that clear before While controlling the texts we had great joy and pleasure and we were reading them as if they were written by someone else The writings were helping us in an unexpected way in overcoming our greatest distresses giving us a strong state of faith Because what we were writing was talking about eternal truths of faith and Quran and they were having such qualities which were having much more different than a work presented with the individual proficiency and capability of a person Therefore the beauty and the excellence of these truths must have been reflected in our word as well For sure we were pursuing an immensely difficult and tedious effort sometimes it was taking 3 5 hours to complete 1 2 pages of explanatory notes We were spending an equal amount of time for footnotes and the glossary of concepts But the feeling of joy happiness and spiritual satisfaction were exceedingly worth this effort At this stage we realized and felt the reason behind Bedi zzaman s saying I am also a student of Risale i Nur I am your classmate in learning the Teachings of Quran I am also in need of Risale i Nur And we understood that he was not trying to be humble while saying this As a requirement of being human we wanted to share what we had found and felt with those who had the same needs and who were in the same search This is what we mean when we say that we are not like a teacher who makes you sit before her and starts teaching you Maybe rather we are like a guest who himself is entreated a dining table as he is as hungry and needy as everybody and he is sincerely inviting you to this dining table Or maybe we are like a curious kid who has found the key to a magnificent and inexhaustible treasure and who wants to inform others of its existence and share it with them We have made a great effort in order to prepare this work which we share with great enthusiasm But we admit that this work has been the result of Allah s special treatment which is way beyond our personal capabilities and power We believe wholeheartedly that every believer and everyone who has set his heart on Risale i Nur and in fact everybody will read this book enthusiastically and with a compassion which is stronger than the need for water of a person who has been dehydrated for a while The epilogue of our book which is entitled Your Journey Just Begins Now is also included in this work as it contains emotional striking and impressive points coming sincerely from the deepest parts of our hearts about the reading of Risale i Nur and attendance to the Risale i Nur Lectures BOOK INDEX Rehearsal Scene Evidence for Eternal Life New Perspectives from the Treatise of Resurrection 1 Presentation Let s Get Acquainted with the Books Discovering The Secret of The Universe The purpose and
