

Perimeter of an Object

Perimeter- the distance all the way around an object.

Add up all the sides to find the perimeter.

You can find the length of the missing side by looking at parallel sides.

Total perimeter = 90 in.

Add the given lengths, then Subtract from the total perimeter to find a missing side.

They also think of the ways great artists have employed these concepts in their depictions of objects and space for example Picasso's use of geometric shapes in his Cubist still lifes or contemporary artist Tara Donovan's room sized sculptures of everyday items. In their new book Object Lessons Caren a math educator and Lynn an artist and art educator use a highly visual approach to show students and teachers the art in math and the math in art. Integrating visual arts into math experiences makes the lessons accessible engaging and meaningful for a wide range of students. In each chapter the authors use everyday objects to create rigorous hands on activities that address key mathematics standards and concepts. Each lesson provides an introduction to the featured object that explains how it connects to key mathematical concepts a discussion of the artist's art styles and techniques featured activities organized by
