Teaching Science to Language Minority Students Judith W. Rosenthal,1996 In the USA the number of college students with limited English proficiency is increasing Even after successfully completing a course of English as a second language many face both linguistic and cultural barriers in mainstream classes This book focuses on both the theory and practice of assisting such students especially in the sciences As the number of non native English speaking students increases at colleges and universities innovative approaches are needed to successfully educate this population and how science is taught may be crucial Instruction in the students native language may become increasingly important in attracting and retaining non native English speakers in college This book is aimed primarily at staff who teach science to LEP undergraduates but others who should be interested include staff involved with postgraduate students and high school science teachers

A Teacher's Guide to Educational Assessment Iasonas Lamprianou,James A. Athanasou,2009-01-01 This book is a natural step beyond our earlier text A Teacher s Guide to Assessment which was published almost six years ago The purpose of this book is to offer a straightforward guide to educational assessment for teachers at all levels of education including trainers and instructors The scope of this book is wider however and the targeted audience is broader than the first edition It is designed to address the needs not only of those taking a first course in educational assessment and measurement but it can also usefully serve students at the post graduate level as well as experienced teachers trainers and instructors who would like to update their

knowledge and acquire practical skills using relevant quantitative methods The book is appropriate for an international audience In this revised edition we have added new and important material which covers the assessment arrangements necessary for people with special needs and the use of technology for assessment purposes We have elaborated on the dangers of differential item functioning we have extended the Rasch measurement material and enriched the book with practical examples using Microsoft Excel The main message of the book is that assessment is not based on commonsense but on a huge body of international research and application over many years Testing is a powerful vital and large part of a teacher s assessment arsenal because it can be practical structured and very informative The correct use of testing either in its traditional paper and pencil form or in its modern technology based style can be a formidable ally for every teacher who aspires to practise evidence based teaching and learning
