Advancement of Machine Intelligence in Interactive Medical Image Analysis Om Prakash Verma, Sudipta Roy, Subhash Chandra Pandey, Mamta Mittal, 2019-12-11 The book discusses major technical advances and research findings in the field of machine intelligence in medical image analysis. It examines the latest technologies and those that have been implemented in clinical practice such as computational intelligence in computer-aided diagnosis, biological image analysis, and computer-aided surgery and therapy. This book provides insights into the basic science involved in processing, analysing, and utilising all aspects of advanced computational intelligence in medical decision making based on medical imaging.

The Case for Critical Literacy Alice S. Horning, 2024-08-15 The Case for Critical Literacy explores the history of reading within writing studies and lays the foundation for understanding the impact of this critical yet often untaught skill. Every measure of students' reading comprehension, whether digital or analog, demonstrates that between 50 and 80 percent of students are unable to capture the substance of a full discussion or evaluate material for authority, accuracy, currency, relevancy, appropriateness, and bias. This book examines how college-level instruction reached this point and provides pedagogical strategies that writing instructors and teachers can use to address the problem. Alice Horning makes the case for the importance of critical reading in the teaching of writing with intentionality and imagination while sharing glimpses of her own personal history with reading and writing. Horning provides the context for understanding what college faculty face in their classrooms and offers a history of critical literacy that explains why, to date, it has mostly been neglected or ignored. The diverse statuses of students' reading challenges are explored. The Case for Critical Literacy explores actionable options to better meet students' literacy needs. College and university faculty, especially writing instructors, will benefit from an understanding of what has happened in the field and what needs to change.
