The Highly Effective Office Timothy Schipper, 2019-01-15 The Highly Effective Office covers the transformation journey required to change the culture in the workplace from processes that suffer from functional separation and siloed departments to efficient and integrated systems Most office processes have evolved into separate and autonomous standalone functions that are sub-optimized The result is added wastes in the processes and the customers are often the first to notice The wastes parallel the manufacturing floor wastes and deserve the same attention for identification and removal Yet the culture of the office is predisposed to work by a separation of duties Roles and responsibilities are not aligned around processes The same type of dramatic transformations that were enabled on the concrete factory floor are needed in carpeted offices This book describes methods to transform the value streams in the office and administrative areas of organizations and it outlines why Lean works just as well in the office as it does in manufacturing Wastes typically reach 50% of the process effort and these processes are ripe for improvement Throughout the book waste removal in office processes are fully illustrated with descriptions of applying Lean tools to achieve flow Case studies from the corporations non-profits and higher education institutions demonstrate how various types of organizations have reached success by applying Lean principles to their processes Lean expert Timothy Schipper outlines the structural and leadership changes that are required to create a transformational journey for process change and continuous improvement Leadership activities are outlined along with descriptions of how to assign ownership and responsibility for the changes inside the organization Various leadership behaviors are explored that support and help to sustain the effort Attention is given to how to start the journey how to select projects and launch them with clear goals and objectives and how to run successful workshops as well as visual tools and techniques and educational content Finally and most importantly a description of the mature Lean culture is offered to show how to embed process improvement into the organization **Without Trumpets** Susan G. Allred, Kelly A. Foster, 2018-06-01

Empowering leaders at each level of the implementation of improvement processes is essential if public schools are to survive moving forward The story of Kentucky's continuous improvement can be evidenced from the Kentucky Education Reform Act KERA of 1990 and the intensive systems work since 2009 outlined in Senate Bill 1 and amended by House Bill 176 2010 Even with a significantly different governance and support approach outlined in Senate Bill 1 2017 by aligning federal statute regulation and initiatives state statute and regulation state school board goals local school board policies and school improvement plans a consistent message of expectation is clarified for schools and classrooms Key core work processes aligned behind those policies lead to systems that can be flexible and adjust to the political and economic climates that surround the work of learning without total disruption of the system The use of transparent design and common instruction while monitoring quality tools is making a recognizable difference Funding from the sometimes maligned School

Improvement Grant SIG process from the United States Department of Education and work with key partners enables the establishing of sustainable systems for continuous improvement in the areas of planning use of data fiscal management student support and teacher support owned by leaders at each level of implementation The pertinent data and reports the human story the tools used and lessons learned are a continuous improvement story into sustainability which will resonate with all who lead in education at any level reaffirming that we can do this
