Lawrence, 1976 *Community Gardening* Ellen Kirby, Elizabeth Peters, 2008 This guide to community gardening uses case studies to show how to produce safe eco friendly food bring neighbors together offer science lessons for children and give participants the satisfaction that comes with making things grow *Community Gardening as Social Action* Claire Nettle, 2016-05-23 There has been a resurgence of community gardening over the past decade with a wide range of actors seeking to get involved from health agencies aiming to increase fruit and vegetable consumption to radical social movements searching for symbols of non capitalist ways of relating and occupying space Community gardens have become a focal point for local activism in which people are working to contribute to food security question the erosion of public space conserve and improve urban environments develop technologies of sustainable food production foster community engagement and create neighbourhood solidarity Drawing on in depth case studies and social movement theory Claire Nettle provides a new empirical and theoretical understanding of community gardening as a site of collective social action This provides not only a more nuanced and complete understanding of community gardening but also highlights its potential challenges to notions of activism community democracy and culture **Community Gardening in an Unlikely City** Tyler Schafer, 2020-12-10 Community gardening is as much about community as it is gardening and compared to growing plants cultivating community is far more difficult In Community Gardening in an Unlikely City The Struggle to Grow

Together in Las Vegas Schafer documents his time as a member of a fledgling Las Vegas community garden and the process through which a rotating group of gardeners try to forge community He demonstrates the ways in which choices gardeners make about what goals to pursue or who belongs or what story to tell about their collective efforts influence how they and others experience and interpret the garden The garden culture that emerges over time shapes how or whether community is practiced at the garden and has important consequences for the gardeners abilities to connect with the low income Black and Latinx community in which it is located Schafer s analysis provides important insights about urban culture the environment and food justice in the American Southwest and a sober look into the often messy process and practice of community

FoodReview ,2000 *Community Garden Growth* Hannah Gray,AI,2025-02-27 Community Garden Growth explores how community gardens address food security community development and environmental sustainability It argues that these gardens are more than just green spaces they re scalable solutions for boosting food access and community resilience The book delves into the history of community gardens tracing their evolution from wartime Victory Gardens to modern urban agriculture revealing how social and political forces have shaped their purpose The book examines the impact of community gardens on household food security particularly for vulnerable populations It also assesses their potential to foster social cohesion promote healthier lifestyles and contribute to local economies Using research case studies and survey data it offers a balanced view of the benefits and limitations highlighting the role of sustainable food systems in enhancing food access The book progresses from introducing core concepts to exploring historical and social contexts then offering in depth analyses of the gardens impact It concludes with policy recommendations and practical strategies for promoting community garden growth providing a roadmap for communities aiming to implement or expand their own gardening initiatives

Participatory Design and Self-building in Shared Urban Open Spaces Carolin Mees,2018-04-12 The book investigates the development of community gardens with self built structures which have existed as a shared public open space land use form in New York City s low come neighborhoods like the South Bronx since the 1970s These gardens have continued to be part of the urban landscape until today despite conflicting land use interests changing residents groups and contradictory city planning Both community gardens and self built structures are created in a participatory design and self built effort by urban residents and are an expression of the individual gardeners preferences their cultural background and the decisions made by the managing residents group in regards to the needs of their neighborhood Ultimately community gardens with self built structures are an expression of the people s will to commonly use this land for open and enclosed structures next to their homes in the city and need to be included in future urban planning *Challenge* ,1978 **A**
