Vocationalisation of Secondary Education Revisited Jon Lauglo,R. Maclean,2006-03-30 The book is a cutting

edge contribution to the debate which has occurred for some time on the pros and cons of secondary education becoming more closely and explicitly related to preparing young people for the world of work The book provides concrete examples of the vocationalisation of secondary education with particular reference to the situation in Africa The target audience for the book includes policy makers practitioners administrators education planners researchers teachers and teacher educators with a concern about the relationship between secondary education and education for the world of work with particular reference to technical and vocational education and training TVET The book appears in the Springer book series on Technical and Vocational Education and Training Issues Concerns and Prospects and compliments the International Handbook of Technical and Vocational Education and Training and other publications in the International Library of TVET all of which are publications of the UNESCO UNEVOC International Centre for TVET in Bonn Germany **Newswatch** ,2008 **Daily Graphic** J.K.
