"*Why Won't You Just Tell Us the Answer?*" Bruce Lesh, 2023-10-10 Every major measure of students historical understanding since 1917 has demonstrated that students do not retain understand or enjoy their school experiences with history Bruce Lesh believes that this is due to the way we teach history lecture and memorization Over the last fifteen years Bruce has refined a method of teaching history that mirrors the process used by historians where students are taught to ask questions of evidence and develop historical explanations And now in his new book *Why Won't You Just Tell Us the Answer* he shows teachers how to successfully implement his methods in the classroom Students may think they want to be given the answer Yet when they are actively engaged in investigating the past the way professional historians do they find that history class is not about the boring memorization of names dates and facts Instead it's challenging fun Historical study that centers on a question where students gather a variety of historical sources and then develop and defend their answers to that question allows students to become actual historians immersed in an interpretive study of the past Each chapter focuses on a key concept in understanding history and then offers a sample unit on how the concept can be taught Readers will learn about the following Exploring Text Subtext and Context President Theodore Roosevelt and the Panama Canal Chronological Thinking and Causality The Rail Strike of 1877 Multiple Perspectives The Bonus March of 1932 Continuity and Change Over Time Custer's Last Stand Historical Significance The Civil Rights Movement Historical Empathy The Truman MacArthur Debate By the end of the book teachers will have learned how to teach history via a lens of interpretive questions and interrogative evidence that allows both student and teacher to develop evidence based answers to history's greatest questions

**Why Learn History (When It's Already on Your Phone)** Sam Wineburg, 2018-09-17 A look at how to teach history in the age of easily accessible but not always reliable information Let's start with two truths about our era that are so inescapable as to have become clichés We are surrounded by more readily available information than ever before And a huge percent of it is inaccurate Some of the bad info is well meaning but ignorant Some of it is deliberately deceptive All of it is pernicious With the Internet at our fingertips what's a teacher of history to do In *Why Learn History When It's Already on Your Phone* professor Sam Wineburg has the answers beginning
