An Interpretive Guide to Operatic Arias Martial Singher, Eta Singher, 1983 A premier singer and master teacher here tells other singers how to get the most from 151 famous arias selected for their popularity or their greatness from 66 operas ranging in time and style from Christopher Gluck to Carlisle Floyd from Mozart to Menotti The most memorable thrills in an opera singer s life according to the author s Introduction may easily derive from the great arias in his or her repertoire This book continues the work Martial Singher has done in performances in concerts and in master classes and lessons by drawing attention not only to precise features of text notes and markings but also to psychological motivations and emotional impulses to laughter and tears to technical skills to strokes of genius and even here and there to variations from the original works that have proved to be fortunate For each aria the author gives the dramatic and musical context advice about interpretation and the lyric with the original language if it is not English and an idiomatic American English translation in parallel columns The major operatic traditions French German Italian Russian and American are represented as are the

major voice types soprano mezzo soprano tenor baritone bass baritone and bass The dramatic context is not a mere summary of the plot but is a penetrating and often witty personality sketch of an operatic character in the midst of a situation The musical context is presented with the dramatic situation in a cleverly integrated way Suggestions about interpretation often illustrated with musical notation and phonetic symbols are interspersed among the author's explication of the music and the action An overview of Martial Singher's approach based on fifty years of experience on stage in a hundred roles and in class at four leading conservatories is presented in his Introduction As the reader approaches each opera discussed in this book he or she experiences the feeling of participation in a rehearsal on stage under an urbane though demanding coach and director The Interpretive Guide will be of value to professional singers as a source of reference or renewed inspiration and a memory refresher to coaches for checking and broadening personal impressions to young singers and students for learning to teachers who have enjoyed less than a half century of experience and to opera broadcast listeners and telecast viewers who want to understand what goes into the sounds and sights that delight them

American Opera Singers and Their Recordings Clyde T. McCants, 2004-08-06 This book focuses on American opera singers and what their recordings say about their artistry It is not a book about all American opera singers since many who had important careers on stage made few if any recordings And many of those who did make recordings did so prior to the introduction of electrical recording in 1925 and the resulting advances in the reproduction of the human voice Opera enthusiasts can only imagine the sound of Farinelli's voice or read what his contemporaries have written about it but with

almost any famous or near famous singer of recent years enthusiasts do not have to imagine Their voices are available through the technology of sound recording There are 53 entries one each for 52 singers and a composite entry for a group of Hollywood vocalists Each entry contains biographical information and is followed by a discography of operatic recordings to be used in conjunction with the critical commentaries The entries are in alphabetical order by the singer's last name and provide critical analyses of key recordings and of the artists' gifts and limitations

The Gramophone, 1924 *Giovanni Battista Rubini and the Bel Canto Tenors* Dan H. Marek, 2013-06-06 Giovanni Battista Rubini 1794-1854 was a legendary tenor and the first 19th century non castrati male singer to become an international star of opera The previous two centuries had been the era of the castrati with tenors and basses relegated to character and supporting roles in the operas of their time Rubini stood apart because he not only matched the castrati in coloratura and pathos but he also had an extraordinarily high voice With Rubini's rise and in his wake several tenors came to sing roles written specifically for them by Rossini Bellini Donizetti and many other lesser known bel canto composers Signaling the end of the dominance of castrati on stage this period would last some forty years until the advent of grand opera Wagner and Verdi and the appearance of the first so called High C from the chest by Gilbert Louis Duprez in 1837 Since then the accepted tenor sound has followed the tradition epitomized by Enrico Caruso and in our own era Luciano Pavarotti and Plácido Domingo Many composers, conductors and performers would come to regard bel canto dramatic operas as decorative and vapid until Maria Callas and Tulio Serafin demonstrated the heights this genre of opera could reach However opera directors and opera performers of late who have expressed an interest in reviving selected masterpieces from the bel canto tradition have found themselves confronted with the problem of locating tenors versed in the vocal techniques necessary to carry the high tessituras In *Giovanni Battista Rubini and the Bel Canto Tenors: History and Technique* Dan H. Marek explores the extraordinary life of Rubini in order to frame this special period in the history of opera and connect the technique of the castrati who were among Rubini's instructors Drawing on the work of Berton Coffin Marek offers long sought answers to the challenges presented by high tessitura of bel canto operas for tenors To further assist working singers *Giovanni Battista Rubini and the Bel Canto Tenors* includes over sixty pages of exercises written by Rubini himself before 1840 which Marek for the first time ever has adapted to acoustical phonetics Professional singers, teachers and their students, vocal coaches and opera conductors will find this work indispensable as the only English language work on high tessitura for tenor and soprano singing
