provides a historical study of economic crises from the post Napoleonic period through the Great Depression and the recovery of the late 1930s Volume two offers a critique of the theories of crises their causes and potential remedies in which Lescure outlines his preference for organic theories that focus on the production process and qualitative statistical observation of the movements in costs selling prices industrial orders and profits The text of the fifth edition appears here in English for the first time unabridged and complete with editorial materials designed to help the English reader understand the work on its own terms and situate its author s prominent place in the history of economic thought     **The American Legion Magazine** ,1941     The Dial ,1909     **The Tammany Times** ,1907     **Oil, Paint and Drug Reporter and New York Druggists' Price Current** ,1917 Vols include the proceedings some summarized some official stenographic reports of the National Wholesale Druggists Association called 18 1882 Western Wholesale Druggists Association and of other similar organizations     **Street's Pandex of the News and Cumulative Index to Current History** ,1909     Directory of Leading Private Companies ,1992
