The Psychiatric Interview for Differential Diagnosis Lennart Jansson, Julie Nordgaard, 2016-07-18 This book offers an alternative to operational diagnostic manuals and manuals for structured interviewing as the only sources of theoretical and clinical knowledge It provides an exposition of psychiatric interviewing that is theoretically and clinically well founded and supplies the reader with a coherent framework for performance of a thorough psychiatric examination The goal is not to come up with yet

another interview scheme but to facilitate an understanding of the basic but today completely neglected tenets of psychopathology and phenomenology This exposition targets the disorders of subjectivity consciousness the second person processes involved in converting subjective first person and observable data into a third person diagnostically useful format In addition the most pertinent clinical descriptions concerning the major diagnostic groups are presented and discussed
