Thompson,2012-05-20 The M1 Garand gave the US infantryman a marked edge during World War II It shot faster and further  
than enemy infantry rifles and hit harder No less an authority on killing the enemy than General George S Patton called the  
Garand The greatest battle implement ever devised At a time when opposing forces were armed with bolt action rifles US  
troops had a highly reliable self loader The eight round clips which were used to load the M1 Garand were however viewed  
with mixed emotions by the troops on the ground Some Army and Marine Corps troops allegedly felt that the distinctive  
twang as the Garand s clip was ejected when empty alerted the enemy that the soldiers were reloading and resulted in an  
attack But the Garand became the defining mankiller of the war despite its weight and magazine problems and many US  
combat veterans consider it one of the key reasons they survived the war **Learning the Secrets of English Verse** David

English up to and including the free verse forms of modern and contemporary poetry Part 2 presents a close examination of  
stanza forms that moves from the simple to the complex beginning with couplets and ending with the 14 line Eugene Onegin  
stanza The goal of the book is to give students the essential skills to understand how any line of poetry in English may have
