Designed as a roadmap to help contractors and other stakeholders navigate the insurance landscape, it outlines why vulnerable Pacific countries have limited insurance market access and details how that impacts construction. The 2015 Development Effectiveness Review (DEFr) is the ninth in a series of yearly reports by the Asian Development Bank (ADB) on its performance in achieving the priorities of Strategy 2020, its long-term strategic framework for 2008-2020. The Law and Governance of the Asian Infrastructure Investment Bank Gu Bin, 2018-11-27. The Asian Infrastructure Investment Bank (AIIB), which began operations in 2016 and now has an approved membership of eighty-four worldwide, has quickly become perhaps one of the world's most promising agents of global economic development. With its firm commitments to the twenty-first-century imperatives of cost effectiveness, zero tolerance for corruption, and active promotion of environmental sustainability, its clearly stated aims and requirements echo the goal of reform that other multilateral institutions are undertaking. This book is among the first to offer an incisive introduction to the AIIB's law and governance, which are now essentially in place. From a perspective of Chinese multilateralism, which parts ways from the dominant twentieth-century Bretton Woods arrangements, the author provides in great depth the details of such elements of the Bank's Articles of Agreement as the following non

resident board system procurement role of trust funds state owned enterprises as private entities immunity dispute settlement accountability for involuntary resettlement and human rights violations and policy on prohibited practices Throughout the author provides deeply informed comparisons with such existing multilateral development banks as the World Bank the African Development Bank the Asian Development Bank the European Bank for Reconstruction and Development and the Inter American Development Bank as well as with the World Trade Organization He shows how the AIIB not only emulates but also innovates while continuing to collaborate closely with these institutions He suggests what should be done to optimize governance standards and operations of the AIIB together with these peer institutions in a mutually emulating manner Lawyers and policymakers involved in international economic law and related fields will welcome this nuanced and in depth description and analysis of the AIIB Its concomitant analysis of political economy and global governance issues will be of interest to bankers businesses government officials and others looking for an overall understanding of multilateral development banking and China s approach toward global governance in particular
