Federal Energy Regulatory Commission,2005-10 *Freshwater Fisheries Ecology* John F. Craig,2016-01-12 Inland fisheries are vital for the livelihoods and food resources of humans worldwide but their importance is underestimated probably because large numbers of small local operators are involved Freshwater Fisheries Ecology defines what we have globally what we are going to lose and mitigate for and what given the right tools we can save To estimate potential production the dynamics of freshwater ecosystems rivers lakes and estuaries need to be understood These dynamics are diverse as are the earths freshwater fisheries resources from boreal to tropical regions and these influence how fisheries are both utilized and abused Three main types of fisheries are illustrated within the book artisanal commercial and recreational and the tools which have evolved for fisheries governance and management including assessment methods are described The book also covers in detail fisheries development providing information on improving fisheries through environmental and habitat evaluation enhancement and rehabilitation aquaculture genetically modified fishes and sustainability The book thoroughly reviews the negative impacts on fisheries including excessive harvesting climate change toxicology impoundments barriers and abstractions non native species and eutrophication Finally key areas of future research are outlined Freshwater Fisheries Ecology is truly a landmark publication containing contributions from over 100 leading experts and supported by the Fisheries Society of the British Isles The global approach makes this book essential reading for fish biologists fisheries scientists and ecologists and upper level students in these disciplines Libraries in all universities and research establishments where biological and fisheries sciences are studied and taught should have multiple copies of this hugely valuable resource About the Editor John Craig is Editor in Chief of the Journal of Fish Biology and has an enormous range of expertise and a wealth of knowledge of freshwater fishes and their ecology having studied them around the globe including in Asia North America Africa the Middle East and Europe His particular interests have been in population dynamics and life history strategies He is a Fellow of the Linnean Society of London and the Royal Society of Biology Alaska Herring History James Mackovjak,2022-07-18 Alaska Herring History is a thoroughly researched well documented and comprehensive chronicle of Alaska s herring fisheries Author James Mackovjak describes the evolution of these fisheries from the late nineteenth century to the present including harvest processing markets and sustained yield management considerations The book is divided into three parts based on the purposes for which herring have been harvested Part I is a history of the reduction fertilizer fish meal fish oil and cured salted herring industries and the bait herring fisheries part II is a history of the roe herring fisheries in Southeast Alaska Prince William Sound Kodiak Island lower

Cook Inlet Togiak and Norton Sound and part III is a history of the herring spawn on kelp industry Historical and contemporary photos and illustrations as well as graphs and charts that help summarize the development and in some cases the demise of the fisheries augment this detailed look at the evolution of Alaska's herring fisheries Balancing scientific details historical facts and personal anecdotes from experts in the field Alaska Herring History will be of interest to historians social scientists biologists and fishery managers and makes an important contribution to Alaska fisheries literature
