A. Thomas McLellan, Ph.D.

Thomas H. Coyne, MSW

**Remember: This is an interview, not a test.**

**INTRODUCING THE ASI:** Introduce and explain the seven potential problem areas: Medical, Employment/Support Status, Alcohol, Drug, Legal, Family/Social, and Psychiatric. All clients receive this same standard interview. All information gathered is confidential; explain what that means in your facility; who has access to the information and the process for the release of information.

There are two time periods we will discuss:

1. The past 30 days
2. Lifetime

**Patient Rating Scale:** Patient input is important. For each area, I will ask you to use this scale to let me know how bothered you have been by any problems in each section. I will also ask you how important treatment is for you for the area being discussed.

The scale is:

- 0 - Not at all
- 1 - Slightly
- 2 - Moderately
- 3 - Considerably
- 4 - Extremely

Inform the client that he/she has the right to refuse to answer any questions. If the client is uncomfortable or feels it is too personal or painful to give an answer, instruct the client not to answer. Explain the benefits and advantages of answering as many questions as possible in terms of developing a comprehensive and effective treatment plan to help them.

**Please try not to give inaccurate information!**

## INTERVIEWER INSTRUCTIONS:

1. Leave no blanks.
2. Make plenty of Comments (if another person reads this ASI, they should have a relatively complete picture of the client's perceptions of his/her problems).
3. Terminate interview if client misrepresents two or more sections.
4. When rating comments, please write the question number.

## HALF-TIME RULE:

If a question asks the number of months, round up periods of 14 days or more to 1 month. Round up 6 months or more to 1 year.

## CONFIDENCE RATINGS:

- Last two items in each section.
- Do not over-interpret.
- Denial does not necessarily warrant misrepresentation.
- Misrepresentation = overt contradiction in information.

**Probe, cross-check and make plenty of comments!**

## HOLLINGSHEAD CATEGORIES:

1. Higher status, major professionals, owners of large businesses.
2. Business managers of medium sized businesses, lower professionals, i.e., nurses, opticians, pharmacists, social workers, teachers.

- Lifetime use is asked to determine extended periods of use.
- Regular use = 3 or more times per week, binges, or problematic irregular use in which normal activities are compromised.
- Alcohol to intoxication does not necessarily mean "drunk", use the words "to feel or felt the effects", "got a buzz", "high", etc. instead of "intoxication. As a rule, 3 or more drinks in one sitting, or 5 or more drinks in one day defines "intoxication".
- How to ask these questions:

- "How many days in the past 30 have you used...?"
- "How many years in your life have you regularly used...?"
