OEuvres complètes de Voltaire: Essai sur les mœurs. t. 13. Essai sur les mœurs (cont'd) Annales de l'empire. 1878
Voltaire, 1878 **The Bourdieu paradigm** Derek Robbins, 2019-07-12 Analysing the work of Schutz Gurwitsch Merleau Ponty and Bourdieu this book considers the historical development of competing philosophies of social science It examines the relations between phenomenology Gestalt psychology and empirical social science in the first half of the twentieth century and then explores the way in which Bourdieu responded to this legacy by advocating a form of reflexive social scientific investigation which would remain faithful to primary experience without disowning accumulated intellectualism The book asks whether the Bourdieu paradigm retains value beyond the French conditions of its production It offers an analysis of the development of Bourdieu's thought and practice which constitutes an invitation to readers generally to reassess the value of the western tradition of the social function of the detached intellectual for mass democratic societies

The Modernist Traveler Kimberley J. Healey, 2003-01-01 The Modernist Traveler considers figures whose writing about travel rebelled against a literary tradition of exoticism adventure stories and novelistic travelogues Instead these writers initiated a modernist strain in travel writing and a shift in the literary establishment and the culture at large Kimberley J Healey focuses on those French writers and thinkers who traveled in order to experience a displacement of both the inner self and the physical body while writing against the prevalent tradition of travel literature The modern self modern time colonial spaces and the physical body are Healey's concerns as she reads works by Victor Segalen Paul Morand Blaise Cendrars Henri Michaux Saint John Perse Guillaume Apollinaire Paul Nizan Albert Londres André Malraux Valéry Larbaud and Isabelle Eberhardt This book shows how in the field of French literature these texts about travel best capture the modernist experience of being alone in a world of new technologies cultural diversity and anxiety about the self **Pierre Bourdieu** Jeremy F. Lane, 2000-07-20 This study of the work of the influential French sociologist and anthropologist Pierre Bourdieu places his work firmly in the context of developments both in the French post war intellectual field and in post war French society as a whole Set against the background of rapid change and upheaval that has characterised post war French society culture and politics Bourdieu's work can be seen as offering a peculiarly perceptive analysis of France's problematic transition to an era of late capitalism Proceeding thematically this study traces the development of Bourdieu's thought elucidating the relationship between the anthropological and sociological aspects of his work examining his debt to Marx Weber Durkheim Husserl Merleau Ponty and Bachelard and highlighting his antagonistic relationship with a series of contemporary intellectual figures and movements Barthes Lefebvre Touraine Sartre Fanon Foucault Derrida structuralism and post structuralism *Essai exégétique sur le XXVIIe chapitre d'Ezéchiel, suivi d'un Essai historique sur les colonies, la navigation, le commerce et l'industrie des Phéniciens en général et des Tyriens en particulier* Jean Hoffmann, 1843
