what would you identify as the universal sign that a conscious person is choking? - Clutching the throat

A 12-year-old child at a swim meet grabs their chest and begins to make wheezing noises. After you obtain consent to provide care, the child's parent informs you that the child has a history of asthma, but does not have an inhaler nearby. What care should you provide? - Summon more advanced medical personnel and place the victim into a position that helps breathing.

As you are giving ventilations with a resuscitation mask, the victim vomits. Which of the following would you do first? - Turn the victim onto their side and clear the airway of the vomit immediately.

A person has been injured and is responsive. You obtain consent to check the victim for life-threatening conditions. What life-threatening condition would require you to immediately summon EMS personnel? - Persistent chest pain

When giving chest compressions to an adult, how would you position your hands? - Heel of one hand on the center of the chest with the other hand on top

Based on which of the following signs and symptoms would you determine that a victim is experiencing respiratory distress? - Gasping for breath

A patron has slurred speech, is unable to lift their right arm level with their left arm and is unable to smile without one side of their face drooping. You make note of the time the symptoms started. These are symptoms of: - A stroke.

You determine that a victim is unresponsive but breathing. While waiting with the victim for EMS personnel, you would position the victim: - In a recovery position.

You are performing CPR on a victim and an assisting responder arrives. Which of the following is most appropriate for the assisting responder to do first? - Check to see whether EMS personnel have been called.

While preparing to use an automated external defibrillator (AED) on a victim, you notice a medication patch on the victim's chest. Which action is most appropriate? - Removing the patch with a gloved hand.

When giving abdominal thrusts to an adult who is choking, where should you position your fist? - In the middle of the abdomen, just above the navel
