What was the Age of Exploration and how did Europeans treat the natives?

The Age of Exploration was when the Europeans were looking for land to colonize and make their own. This may not have been the best point in time, especially for the natives. The natives were treated like slaves even though someone was coming in and invading their land.

What new ideas about government were being proposed by the Enlightenment philosophers?

Enlightenment philosophers believed that there should be a system built of three branches that had a system of checks and balances. They believed that this would cause no branch to get more out of power than the next and it would keep them all in harmony.

Group C

- Explain one reason why the British should have won, and one reason why the colonists should have won the Revolutionary War?

-Explain one reason why the British should have won, and one reason why the colonists should have won the Revolutionary War?

During the revolutionary war, neither side had a clear advantage. I believe that the british should have won because of their strong army and the way they were so organized with everything but the colonists did have the advantage of help from the french and really strong tactics.
