

because an area is officially protected, that doesn't mean that no one exploits the resources of that area. You can find people to guard these resources but they can be corrupted, bribed. There's a great market for the skins of some endangered animals, for tropical hardwoods, for the artifacts of ancient peoples. So you've got a lot of illegal trading, of ... uh, cutting down trees, of mining, and that really just makes it easier to do this, to get those and to get those illegal goods out.

And what about the local people who are supposed to benefit so much from this influx of eco-tourist revenue? It's true; there are usually more jobs than before. But often the local people have the most marginal, the lowest-paying jobs available. Not only that, many of the jobs are filled by people from other areas who come there looking for work. And then, there's cultural pollution, which happens when an isolated society suddenly comes in contact with Western civilization. You have people who were just farmers or hunter-gatherers one day and the next, they're talking on cell phones, they're watching the Internet. Societies are changed, cultures are lost.

So, once again, eco-tourism and in fact, all tourism has its benefits, but it is not the perfect solution to development.

Summary: Now get ready to answer the questions. Remember, you may turn the page and look back at the reading passage. You may also use your notes to help you. You have twenty minutes to prepare and write your response.

Questions: Summarize the main points made in the lecture that you just heard, discussing how they can affect us. Use main points of the reading. You can refer to the reading passage as you write.

Summary: This is the end of the Integrated Skills Writing Section end of the Audio Program for Practice Test 2. This is also the end of the Audio Program for *The Complete Guide to the TOEFL iBT*. See *IBT Edition*.

ANSWER KEY

Section 1: Guide to Reading

(The TOEFL iBT does not use the letters A, B, C, and D for the multiple-choice items. However, in these answer keys, A corresponds to the first answer choice, B to the second, C to the third, and D to the fourth.)

Preview Test

Biological Barriers

Answer	Explanation
1. A	The word <i>cosmopolitan</i> means "found in most places in the world" rather than in a limited range. It is often used about people to mean "worldly and sophisticated," but here it is used to describe animals that live all over the world. The example of the honeybee provides a clue to the meaning of the word.
2. C	The author compares the concept of biological barriers with a fence, a familiar type of man-made barrier: "Just as a fenced vine grove prevents cattle from leaving their pasture, biological barriers prevent the dispersal of many species."

3. C The author says, "the American bison spread throughout the open grasslands of North America, but in the southern part of the continent there are deserts, so the bison could not spread there." We can infer from this sentence that bison can live only in open grasslands.
4. D The author says that "Most places that are suitable for the growth of dandelions are already occupied by other plants that are well adapted to the area. The dandelion seedling must compete with these plants for space, water, light, and nutrients. Facing such stiff competition, the chances of survival are slim." Clearly, it is the competition with other species of plants that causes so few dandelion seedlings to survive.
5. B The author also gives an example of A in paragraph 4 (the Kirkland's warbler). There is an example of C in paragraph 8 (the blue spotted salamander) and of D in paragraph 5 (the Englishman's fern).
6. D However, there is no example of B, an aquatic animal that is stopped by physical barriers.
7. D In many cases, the word *slim* means "thin," but in this case it is used with the word *chances* to mean "unlikely possibilities."
8. D The two locations that the Kirkland's warbler is restricted to by behavioral barriers are "a few places in Michigan in the summer and ... the Bahamas in winter."
9. C The author states, "Brazil's Amazon River serves as a northern or southern boundary for many species of birds. They could freely fly over the river, but they seldom do." This indicates that the Amazon is an example of a behavioral barrier rather than a physical one.
10. A In paragraph 6, the author says, "The greatest difference between a corridor and a filter route is that a corridor consists of one type of habitat, while a filter consists of several similar types."
11. A The New Zealand mud snail is an example of an invasive species that was carried accidentally to its new environment. ("An example is the New Zealand mud snail, which was accidentally brought to North America . . .")
12. B This choice best restates the original sentence. Although this choice does not give the examples mentioned in the original sentence (quail, parrots, and crows) and although it uses different grammar and vocabulary, this choice is closer to meaning to the sentence from the passage. Choice A brings out some important information from the original sentence, and choices C and D are not accurate.
13. You should circle the second square. The word *they* in the new sentence refers back to birds, and the sentence explains why birds appear in places far from their homes. The third type of natural pathway is called a *cosmopolitan route*. This is dispersal caused by the chance combination of favorable conditions. ■ Bird warblers are familiar with "accidents," which are birds that appear in places far from their native areas. ■ They may be blown off course by storms or may be escaping populations growing too close to home. ■ Sometimes they may find a habitat with favorable conditions and "colonize" it. ■ Crows are familiar with "volunteers," volunteer plants that grow in their gardens although

The Changing Landscape of School Leadership M. Scott Norton,2015-12-31

The primary focus of the book is to emphasize the major changes in the leadership responsibilities of the school principal and to underscore the necessity for them to gain new knowledge and skills in order to direct their leadership toward meeting the new changes in school community goals and objectives M Scott Norton emphasizes the fact that contemporary issues and problems must be viewed as symptoms of change The symptoms represent administrative tasks that must be attacked by implementing the primary reason that the school principal is hired that of leading on going change The leader s responsibility focuses on school purposes as set forth in a viable school mission statement The school s mission statement that all too often is set forth as a public relations perspective must instead set forth answers to questions such as What is our purpose Why does our school exist What is our reason for being here How do we meet the on going changes that face us educationally The leadership of the school principal attacks the symptoms of change by collaborating with the school s faculty to set forth a mission to which all members can commit Collaboration infers a unification of members commitments toward the primary purposes of the school Collaboration and opportunities to confer on an on going basis are established Although the school principal s hands are often tied by such factors as lack of resources

underfunded unfunded mandates inability to hire and retain highly qualified personnel and constantly changing program requirements related to student testing and teacher performance evaluation this book places emphasis on the principal s need to become a visionary change agent in order to attack the ever changing symptoms of educational change

Restoring the Innovative Edge Jerry Hage, 2011-05-17 Considerable evidence indicates that the U S is falling behind when it comes to innovation In part this shift stems from the globalization of research and the advancement of other nations But it also arises from a widespread failure to adapt to the competitive environment generated by the evolution of science and technology The objective of this book is to provide possible remedies for eight key obstacles that the U S faces in restoring its innovative edge Understanding that these remedies are complex each chapter also discusses the dilemmas and impediments that make change a challenge Unlike other books that suggest simple fixes to the U S innovation crisis this book argues that the management of innovation requires multiple interventions at four different levels in research teams organizations economic and non economic sectors and society at large Restoring the Innovative Edge offers specific recommendations for new forms of data collection fresh ideas about cooperation between the public and the private sectors in manufacturing research and a policy evaluation model that measures technical progress and obstacles to it in real time Moreover the book s multi level perspective allows for the integration of a number of specialties within Sociology and Management around the theme of a new socio economic paradigm built on ideas of evolution and failed evolution

The Top Books of the Year American Vision Answer Key Section 1 The year 2023 has witnessed a remarkable surge in literary brilliance, with numerous captivating novels captivating the hearts of readers worldwide. Lets delve into the realm of popular books, exploring the engaging narratives that have charmed audiences this year. American Vision Answer Key Section 1 : Colleen Hoover's "It Ends with Us" This touching tale of love, loss, and resilience has captivated readers with its raw and emotional exploration of domestic abuse. Hoover masterfully weaves a story of hope and healing, reminding us that even in the darkest of times, the human spirit can prevail. American Vision Answer Key Section 1 : Taylor Jenkins Reid's "The Seven Husbands of Evelyn Hugo" This spellbinding historical fiction novel unravels the life of Evelyn Hugo, a Hollywood icon who defies expectations and societal norms to pursue her dreams. Reid's captivating storytelling and compelling characters transport readers to a bygone era, immersing them in a world of glamour, ambition, and self-discovery. Discover the Magic : Delia Owens' "Where the Crawdads Sing" This mesmerizing coming-of-age story follows Kya Clark, a young woman who grows up alone in the marshes of North Carolina. Owens weaves a tale of resilience, survival, and the transformative power of nature, entrancing readers with its evocative prose and mesmerizing setting. These popular novels represent just a fraction of the literary treasures that have emerged in 2023. Whether you seek tales of romance, adventure, or personal growth, the world of literature offers an abundance of compelling stories waiting to be discovered. The novel begins with Richard Papan, a bright but troubled young man, arriving at Hampden College. Richard is immediately drawn to the group of students who call themselves the Classics Club. The club is led by Henry Winter, a brilliant and charismatic young man. Henry is obsessed with Greek mythology and philosophy, and he quickly draws Richard into his world. The other members of the Classics Club are equally as fascinating. Bunny Corcoran is a wealthy and spoiled young man who is always looking for a good time. Charles Tavis is a quiet and reserved young man who is deeply in love with Henry. Camilla Macaulay is a beautiful and intelligent young woman who is drawn to the power and danger of the Classics Club. The students are all deeply in love with Morrow, and they are willing to do anything to please him. Morrow is a complex and mysterious figure, and he seems to be manipulating the students for his own purposes. As the students become more involved with Morrow, they begin to commit increasingly dangerous acts. The Secret History is a masterful and thrilling novel that will keep you speculating until the very end. The novel is a cautionary tale about the dangers of obsession and the power of evil.
