**Zentrepreneurism** Allan Holender,2006 The world of service coupled with entrepreneurial success has been building for the past thirty years Only now has it begun to explode with great strides and creativity We seek a life where our families businesses and our efforts merge into a single harmonious whole and where we measure our success in more ways than just the balance of our bank accounts This book can bring back the values in our lives that often get lost in the quest for success One does not have to be a Buddhist to benefit as the success stories within will testify to but should simply be open to trying a powerful compassionate new way of doing things in the business world Instead of the greedy short sighted business mentality of the past we can move into areas that will improve the lives of many others beyond but still including ourselves With the ever increasing value of service on the rise one can actually achieve larger success in many cases than if generosity and service were not creatively employed
