afterlives Elisabeth Chaghafi, 2019-11-19 English Literary Afterlives traces life narratives of early modern authors created for them after their deaths by readers or publishers who retrospectively tried to make sense of the author's life and works. In a series of case studies of the reception history of major poets Sidney Spenser Donne Herbert as well as Robert Greene the first celebrity author within a generation of their deaths it shows how those authors were posthumously fashioned and refashioned. It argues that during the early modern period there is a gradual movement towards biographical readings that attempt to find the author in the works which in turn led to the emergence of written lives that consider poets not in terms of their public lives but in terms of their poetic activity i.e. the beginnings of literary biography. Will be of interest to students and scholars of several canonical early modern authors

The Whole Works of the Rev. John Lightfoot John Lightfoot, 1825 **Law and Empire in English Renaissance Literature** Brian C. Lockey, 2006-08-31 Early modern literature played a key role in the formation of the legal justification for imperialism. As the English colonial enterprise developed the existing legal tradition of common law no longer

solved the moral dilemmas of the new world order in which England had become instead of a victim of Catholic enemies an aggressive force with its own overseas territories Writers of romance fiction employed narrative strategies in order to resolve this difficulty and in the process provided a legal basis for English imperialism Brian Lockey analyses works by such authors as Shakespeare Spenser and Sidney in the light of these legal discourses and uncovers new contexts for the genre of romance Scholars of early modern literature as well as those interested in the history of law as the British Empire emerged will learn much from this insightful and ambitious study
