**Grass Roots** Scott Hennen, Jim Denney, 2011-07-05. Would you like to do your part in saving America? Grass Roots is a no-nonsense instruction manual that explains exactly what you can do. Scott Hennen, host and founder of the innovative Common Sense Club radio program, shows how everyday Americans just like you are making a difference for our country's future. This down-to-earth handbook gives you clear practical effective actions you can take to preserve the American dream for your children and grandchildren. President Ronald Reagan once said: "All great change in America begins at the dinner table." Today most Americans struggle just to keep food on the dinner table. We are staggering under a crushing burden of big government out of control spending and towering federal debt. We have become tax slaves and the people we sent to Washington to represent us are the very ones who sold us there. We're angry and rightly so. But ruling class politicians have shrugged off our grassroots anger calling it "Astroturf." We're tired of being ignored, patronized and lied to by the very people who are supposed to be our public servants. Not since the original Boston Tea Party of 1773 have so many everyday Americans participated in such a significant display of righteous indignation and freedom-loving patriotism. For the first time in generations ordinary hardworking church-going Americans are carrying signs, gathering in large numbers and making their voices heard. Big government beware! A sleeping giant has awakened. Scott Hennen has drawn up a practical blueprint for change, a handbook for all of us who are ready to roll up our sleeves and do our part to restore America's goodness and greatness. Grass Roots is a political manifesto for every American who loves liberty and cares enough to get involved.

Empowering Young Voices for the Planet Lynne Cherry, Juliana Texley, Suzanne Lyons, 2014-03-10. Because action is the best antidote to climate change. If you haven't yet viewed the Young Voices for the Planet films, you need to. Immediately. And so do your students. These remarkable films showcase nine youth advocates who, starting with nothing but enthusiasm, are shrinking the carbon footprint in their homes, schools and communities. And now, with the help of this corresponding teacher's guide, you can help your students take action against global warming too. Above all else, Empowering Young Voices for the Planet is about teaching students the science and reality of climate change while empowering them to respond effectively and without fear. Inside this guide, you'll find inspiring true stories of low or no-cost youth-led projects that address a wide range of environmental issues and engage schools, local government, businesses, the public and parents. Practical tips for inspiring students to develop projects relevant to their own communities, including

planning financing safety and liability Many creative and replicable ways to reduce CO2 emissions as well as connections to the Next Generation Science Standards Discover for yourself what a powerful catalyst think globally act locally can be when integrated into STEM social studies environmental studies and civic engagement lessons If not now when The entire film series is beyond fantastic Through the YVFP films we witness youth taking a stand to fight to save their planet and their future Karla Utting Programs Director Dream in Green      **The Underground Church** Robin Meyers, 2012-11-15 A new way to follow Jesus that draws on old ways of following him Prominent progressive writer speaker and minister Robin Meyers proposes that the best way for the faithful to recapture the spirit of the early Christian church is to recognize that Jesus following was and must be again subversive in the best sense of the word because the gospel taken seriously turns the world upside down No matter how the church may organize itself or worship the defining characteristic of the church of the future will be its Jesus inspired countercultural witness
