An Israeli In Palestine Resisting Dispossession Redeeming Israel:

An Israeli in Palestine Jeff Halper, 2010-07-05 Israeli anthropologist and activist Jeff Halper throws a harsh light on the Israeli Palestinian conflict from the point of view of a critical insider While the Zionist founders of Israel created a vibrant society culture and economy they did so at a high price Israel could not maintain its exclusive Jewish character without imposing on the country's Palestinian population policies of ethnic cleansing occupation and discrimination expressed most graphically in its ongoing demolition of thousands of Palestinian homes both inside Israel and in the Occupied Territories *An Israeli in Palestine* records Halper's journey beyond the membrane that shields his people from the harsh realities of Palestinian life to his discovery that he was actually living in another country Palestine Without dismissing the legitimacy of his own country he realises that Israel is defined by its oppressive relationship to the Palestinians This second edition includes an epilogue gauging the chances for peace after the failed Annapolis process

Decolonizing Israel, Liberating Palestine Jeff Halper, 2021-01-20 Extremely convincing Electronic Intifada For decades we have spoken of the Israel Palestine conflict but what if our understanding of the issue has been wrong all along This book explores how the concept of settler colonialism provides a clearer understanding of the Zionist movement's project to establish a Jewish state in Palestine displacing the Palestinian Arab population and marginalizing its cultural presence Jeff Halper argues that the only way out of a colonial situation is decolonization the dismantling of Zionist structures of domination and control and their replacement by a single democratic state in which Palestinians and Israeli Jews forge a new civil society and a shared political community To show how this can be done Halper uses the 10 point program of the One Democratic State Campaign as a guide for thinking through the process of decolonization to its post colonial conclusion Halper's unflinching reframing will empower activists fighting for the rights of the Palestinians and democracy for all

Inhabiting the Land Alain Epp Weaver, 2018-08-30 What does it mean to inhabit the land of Palestine and Israel justly How should Christians understand the Palestinian Israeli conflict Alain Epp Weaver examines answers to these questions paying particular attention to the theologies of sumud or steadfastness

advanced by Palestinian Christian theologians while also presenting other Christian Jewish and Muslim responses Contextualizing these theologies within Palestinian and Israeli Jewish histories Epp Weaver introduces readers to the intertwined histories of Zionism as a movement to establish a Jewish state and renew Jewish life in the biblical land of Israel and Palestinian nationalism He also situates Palestinian Christian theologies within broader Christian conversations about election God's enduring covenant with the Jewish people and Zionism In the face of a politics of separation and dispossession Epp Weaver contends Palestinian Christian theologies testify to the possibility of a shared polity and geography for Palestinians and Israeli Jews not defined by walls militarized fences checkpoints and roadblocks but rather by mutuality and reconciliation

Lifeworlds and Change in Palestinian Education Bill Williamson, 2024-07-29 This timely volume critically assesses the state of education in Palestine re framing the discourse on Israel Palestine through the lens of education and arguing for a paradigm shift in the way education in the region is studied managed and experienced Foregrounding the voices commentaries and reflections of Palestinians as well as touching on differing elements of educational experience that define Palestinian identities the book highlights that educational change in Palestine is inseparable from the need to change the politics and understanding of education in western societies Chapters introduce the holistic concept of the lifeworld curriculum which proposes the idea that education cannot be conceived solely in relation to physical educational spaces but in addition should acknowledge the conceptual spaces of civil society communities and the world of work the basic structures of Palestinian lives in order to reinforce the idea that circumstances teach Ultimately challenging western educators to rethink their approaches to education and learning in order to build a stronger global platform for human rights democratic engagement and justice this book will be of value to scholars researchers and postgraduate students in international and comparative education multicultural education and educational change and reform more broadly

Like Birds in a Cage David M. Crump, 2021-10-28 When Christians collude in crimes against humanity they betray their citizenship in the kingdom of God demonstrating that Christ's Lordship does not rule over every area of their lives The popular ideology known as Christian Zionism is a prime enabler of such widespread discipleship failure in western Christianity As the state of Israel continues to violate international law with colonial settlement in lands captured by warfare legalized racial discrimination and the creation of what many have called the world's largest open air prison in Gaza Christian Zionists continue their unqualified support for Zionist Israel Though Israel advertises itself as the only democracy in the Middle East it is actually a rigid ethnocracy its entire society built on the foundations of Jewish supremacy over a Palestinian underclass History will eventually judge Christian Zionist support for Israel's crimes against the Palestinians in the same way people of conscience now condemn the Christian church in the American South for its defense of slavery and hostility towards the civil rights movement Just as the Southern Baptist church finally repudiated its pro slavery past so everyone genuinely devoted to Jesus Christ must repudiate both the ideology and the legacy of Christian Zionism

The Politics and Power of Tourism in Palestine Rami K. Isaac, C. Michael Hall, Freya Higgins-Desbiolles, 2015-12-14 Tourism in Palestine has been receiving an increasingly important profile given its economic and religious importance and the significant role it plays in Israeli Palestinian relations representation of Palestinian statehood and identity and wider Middle Eastern politics Nevertheless Palestine like much of the Middle East as a whole remains extremely underrepresented in tourism literature This title aims to fill this void by being the first book dedicated to exploring the significance of tourism in relationship to Palestine The book examines the role of tourism in Palestine at three main levels First it provides an overview of destination management and marketing issues for the tourism industry in Palestine and addresses not only the visitor markets and the economic significance of tourism but also the realities of the

difficulties of destination management marketing and promotion of the Palestinian state Second it provides a series chapters and case studies that interrogate not only the various forms of tourism in Palestine but also its economic social environmental and spiritual importance This section also conveys a dimension to tourism in Palestine that is not usually appreciated in the Western mainstream media The third section indicates the way in which tourism in Palestine highlights broader questions and debates in tourism studies and the way in which travel in the region is framed in wider discourses A significant dimension of the book is the attention it gives to the different voices of stakeholders in Palestinian tourism at varying levels of scale This timely volume will offer the reader significant insight into the challenges and issues of tourism in this area now and in the future It will benefit those interested in tourism Middle East studies politics economics development studies and geography

Routledge Handbook on Palestine Michael Dumper, Amneh Badran, 2024-12-30 This Handbook provides a broad overview of Palestinian history society politics and culture across different contexts and periods revealing the rich and varied dimensions of Palestine To capture the diversity of Palestinian scholarship and to introduce readers to a mix of approaches and perspectives both internationally established and emerging Palestinian scholars have contributed The Handbook attempts to avoid narrowly framing Palestine around the Israeli Palestinian conflict incorporating postcolonial approaches attentive to a broader range of hitherto overlooked actors While a significant proportion of the Handbook examines the contemporary period it is divided up into four sections that together provide a detailed overview of the main developments in the region A historical section that contextualizes the complex historical formation of contemporary Palestine perhaps best regarded as a country but not yet a state A section exploring the society geography economy and identity of Palestine A section on the political significance of Palestine covering the dynamics between Jewish nationalism Zionism and Palestinian nationalism A final section on culture touching on architecture literature music cuisine education and contemporary art Providing a deep analysis of the Palestinian perspective the Handbook will prove valuable reading for anyone interested in the history politics and society of Palestine and the Middle East

Peace through Tourism Lynda-ann Blanchard, Freya Higgins-Desbiolles, 2013-08-15 Peace through tourism refers to a body of analysis which suggests tourism may contribute to cross cultural understanding tolerance and even peace between communities and nations What has been largely missing to date is a sustained critique of the potential and capacities of tourism to foster global peace This timely volume fills this void by providing a critical look at tourism in order to ascertain its potential as a social force to promote human rights justice and peace It presents an alternative characterisation of the possibilities for peace through tourism embedding an understanding of the phenomenon in a deep grounding in multi disciplinary perspectives and envisioning tourism in the context of human rights social justice and ecological integrity Such an approach engages the ambivalence and dichotomy of views held on peace tourism by relying on a pedagogy of peace It integrates a range of perspectives from scholars from many disciplinary backgrounds non governmental organisations NGOs tourism industry operators and

community all united by an interest in critical approaches to understanding peace through tourism Additionally diverse geo political contexts are represented in this book from the USA India Japan Israel Palestine Kenya the Koreas Indonesia East Timor and Indigenous Australia Written by leading academics this groundbreaking book will provide students researchers and academics a sustained critique of the potential and capacities of tourism to foster global peace **Refusing to be**
