The Creation of Kazakh National Identity Dmitry V. Shlapentokh, 2023-10-31 This monograph utilizes three theoretical models to explain Kazakhstan s emergence as an independent state and its changing relationships with the broader world particularly Russia since the beginning of the twentieth century The book first explores the construction of Kazakh national identity and the ways in which intellectuals appealed to history to substantiate their claims about Kazakhstan s future Secondly the narrative demonstrates that not all segments of totalitarian machinery work in unison While terror reached its peak in the 1930s cultural and ideological control was not as rigid as it would become in the late 1940s and early 1950s Most importantly the work is grounded in the study of the social universe The book introduces the notion of cosmos the peculiar connections between social economic and political forces While not necessarily directly dependent on each other they nevertheless created a unique interplay among the segments of societal structures and the state s relationship with the wider universe Taking this framework as the point of departure this research analyzes Kazakhstan s multi vectorism as uniquely fit to contemporary global arrangements when no global power dominates and the lines between friend and foe are blurred This compelling approach to Kazakhstan s history will appeal to postgraduate students and scholars in Russian history and world history

The Kazakhstan Way Nursultan Nazarbaev, 2007-10 The ninth biggest country in the world Kazakhstan stretches from Europe to China supplying from vast resources its petroleum and gas by pipeline to Western and world markets via the Mediterranean and the Black Sea and simultaneously by direct pipeline to China Economically politically and socially Kazakhstan is increasingly

seen as an exemplar of prosperity sound management national albeit ethnically diverse cohesion and international sagacity befitting its pivotal geo political position Born into a family of transhumant herders of eastern Kazakhstan in July 1940 Nursultan Nazarbayev is now the President of Kazakhstan *Kazakhstan in the Making* Marlène Laruelle, 2016 Kazakhstan is one of the best known success stories of Central Asia perhaps even of the entire Eurasian space It boasts a fast growing economy at least until the 2014 crisis a strategic location between Russia China and the rest of Central Asia and a regime with far reaching branding strategies But the country also faces weak institutionalization patronage authoritarianism and regional gaps in socioeconomic standards that challenge the stability and prosperity narrative advanced by the aging President Nursultan Nazarbayev This policy oriented analysis does not tell us a lot about the Kazakhstani society itself and its transformations This edited volume returns Kazakhstan to the scholarly spotlight offering new multidisciplinary insights into the country's recent evolution drawing from political science anthropology and sociology It looks at the regime's sophisticated legitimacy mechanisms and ongoing quest for popular support It analyzes the country's fast changing national identity and the delicate balance between the Kazakh majority and the Russian speaking minorities It explores how the society negotiates deep social transformations and generates new hybrid local and global cultural references Kazakhstan Sally N. Cummings, 2002-10-01 Kazakhstan is the largest state in Central Asia Rich in oil gas and other natural resources and sandwiched between China and Russia it occupies a key geopolitical position the importance of which was further heightened following the attacks of 9 11 and subsequent wars in the wider Middle East But Kazakhstan was born by default gaining independence only reluctantly as the Soviet Union collapsed Its political elite facing complex tasks of state building also lacked a monoethnic base on which to build its legitimacy Based on original material and extensive interviews in the capital and three of the country's regions the book places the elite in the country's broader institutional and historical context analysing their identity behaviour and how they gained and secured power in the early independence years *Kazakhstan Power and the Elite* is essential reading for all those interested in the history politics and international relations of this fascinating country Living Language in Kazakhstan Eva Marie Dubuisson, 2017-06-30 Eva Marie Dubuisson provides a fascinating anthropological inquiry into the deeply ingrained presence of ancestors within the cultural political and spiritual discourse of Kazakhs In a climate of authoritarianism and economic uncertainty many people in this region turn to their forebearers for care guidance and advice invoking them on a daily basis This living language creates a powerful link to the past and a stable foundation for the present Through Dubuisson's participatory observational and lived experience among Kazakhs we witness firsthand the public performances and private rituals that show how memory and identity are sustained through an oral tradition of invoking ancestors This ancestral dialogue sustains a unifying worldview by mediating questions of faith and morality providing role models and offering a mechanism for socio political critique change and meaning making Looking beyond studies of Islam or heritage alone Dubuisson provides fresh insights into understanding the Kazakh

worldview that will serve students researchers GMOs and policymakers in the region

Historical Dictionary of Kazakhstan

Didar Kassymova, Zhanat Kundakbayeva, Ustina Markus, 2012-05-18 Kazakhstan is in some ways a very old nation dating back to the Kazakh Khanate of 1458 but it dramatically transformed within the Russian Empire and even more so during the period when it was part of the Union of Soviet Socialist Republics. Since 1991 it has been independent and has had to forge its own policy in all fields. Kazakhstan is in an enviable position in terms of exportable natural resources but at the same time it is faced with many domestic problems such as an inadequate infrastructure. Along with solving a multitude of social problems, Kazakhstan has had to simultaneously create a normal functioning state which added to its political difficulties. The situation at present is a state run by a strong ruler which solves some problems but creates others. The Historical Dictionary of Kazakhstan covers the history of Kazakhstan through a chronology, an introductory essay, appendixes, and a bibliography. The dictionary section has over 400 cross-referenced entries on important personalities, politics, economy, foreign relations, religion, and culture. This book is an excellent access point for students, researchers, and anyone wanting to know more about Kazakhstan.

Film and Identity in Kazakhstan Rico Isaacs, 2018-02-07 Cinema and nationalism are two fundamentally modern phenomena but how have films shaped our understanding of the creation and imagining of Central Asian nations? Here Rico Isaacs uses cinema as an analytical lens to explore how the Kazakh national identity has been constructed and contested. Drawing on an analysis of Kazakh films from the last century and featuring new interviews with directors and critics involved in the Central Asian film industry, his book traces the construction of nationalism within Kazakh cinema from the country's inception as a Soviet Republic to a modern independent nation. Isaacs identifies four narratives since the collapse of the Soviet Union: a warrior-like ethnic narrative rooted in the 18th Century struggles against the Mongolian Oirat tribes; a civic inspired narrative cemented in the Stalinist deportations of the 1930s and 40s; a religious narrative founded within the mystic and philosophical religion of Tengrism and the cult of the Sky God; and a socio-economic narrative which roots Kazakh nationhood and identity in contemporary social divisions, the lived day-to-day experiences of ordinary citizens, and the struggles they face with authority. These last two tropes demonstrate how cinema has emerged as a site of dissent against the country's authoritarian regime under President Nazarbayev. Film and Identity in Kazakhstan advances our understanding of Kazakhstan and nationalism by demonstrating the multiple and inessential character of each and illustrates the important role of cinema in contesting political power in the post-Soviet space.
