The Knickerbocker , 1846 **Congressional Record** United States. Congress, 1914 **Prisoners of Politics** Rachel Elise Barkow, 2019-03-04 A CounterPunch Best Book of the Year A Lone Star Policy Institute Recommended Book If you care as I do about disrupting the perverse politics of criminal justice there is no better place to start than Prisoners of Politics James Forman Jr author of Locking Up Our Own The United States has the highest rate of incarceration in the world The social consequences of this fact recycling people who commit crimes through an overwhelmed system and creating a growing class of permanently criminalized citizens are devastating A leading criminal justice reformer who has successfully rewritten sentencing guidelines Rachel Barkow argues that we would be safer and have fewer people in prison if we relied more on expertise and evidence and worried less about being tough on crime A groundbreaking work that is transforming our

national conversation on crime and punishment Prisoners of Politics shows how problematic it is to base criminal justice policy on the whims of the electorate and argues for an overdue shift that could upend our prison problem and make America a more equitable society A critically important exploration of the political dynamics that have made us one of the most punitive societies in human history A must read by one of our most thoughtful scholars of crime and punishment Bryan Stevenson author of Just Mercy Barkow s analysis suggests that it is not enough to slash police budgets if we want to ensure lasting reform We also need to find ways to insulate the process from political winds David Cole New York Review of Books A cogent and provocative argument about how to achieve true institutional reform and fix our broken system Emily Bazelon author of Charged

Excessive Punishment Lauren-Brooke Eisen,2024-04-09 The United States has by far the world s largest population of incarcerated people More than a million Americans are imprisoned hundreds of thousands more are held in jails This vast system has doled out punishment particularly to people from marginalized groups on an unfathomable scale At the same time it has manifestly failed to secure public safety instead perpetuating inequalities and recidivism Why does the United States see punishment as the main response to social harm and what are the alternatives This book brings together essays by scholars practitioners activists and writers including incarcerated and formerly incarcerated people to explore the harms of this punitive approach The chapters address a range of issues from policing to prosecution and from how people are treated in prison to the consequences of a criminal conviction Together they consider a common theme We cannot reduce our dependence on mass incarceration until we confront our impulse to punish in ways that are excessive often wildly disproportionate to the harm caused Essays trace how a maze of local state and federal agencies have contributed to mass incarceration and deterred attempts at reform They shed light on how the excesses of America s criminal legal system are entwined with poverty racism and the legacy of slavery A wide ranging and powerful look at the failures of the status quo Excessive Punishment also considers how to reimagine the justice system to support restoration instead of retribution
