

## The American Pageant Chapter 4 Topic Outline

### American Life in the 17th Century: 1607-1692

#### 1. Introduction (Setting the Stage)

- a. As the 17th century progressed, the crude camps of early settlers grew into developed societies, and while natives adapted to sharing the land with colonists, colonists adapted to the new, harsh way of life in the New World. Despite its economic ties with England, the American colonies were developing their own economy in the Atlantic, and regional differences were beginning to surface.

#### 2. The Unhealthy Chesapeake

- a. During its early settlement, the Chesapeake region (Virginia and Maryland) was difficult to settle and survive in, as it hosted a great number of diseases including typhoid and malaria, diseases which immigrants had not yet developed immunity to.
- b. Most of the population consisted of immigrants from England, the majority of these people being young white males seeking to make a fortune denied to them by primogeniture.
- c. As men greatly outnumbered women, it was initially very hard to create many families or have children. When people did manage to wed and create families, many of these did not last long, as disease and starvation pushed many colonists to death.
- d. By the 16th century, hope had blossomed as the female population rose to close to that of the male one, and native born colonists developed immunities to diseases. Eventually, Virginia became the most populous colony.

#### 3. The Tobacco Economy

- a. Despite living conditions, the Chesapeake became a prime producer of tobacco as a cash crop, sending millions of pounds to England each year and reaping benefits.
  - i. As the hefty supply of tobacco began to outweigh its demand, thus lowering prices, Chesapeake farmers began to plant more and more over larger plots of land.
- b. As families could not reproduce quickly enough to naturally form a labor force and African slaves were too expensive, farmers in the Chesapeake relied heavily on **indentured servants**.
  - i. Through the development of indentured servitude, the **headright system** was formed. In this practice, landowners who paid indentured servants' passage to the new world gained 50 acres of land for each man brought over. Thus, landowners were able to exploit indentured servants to gain large plots of land.
  - ii. However, flaws in the headright system quickly emerged; indentured servants were only required to work for a set amount of time, and were allowed to roam free after the completion of their service. Many men who were freed from servitude aimed to gain land of their own, but due to the headright system's granting of an abundance of land to masters, freed servants were unable to find land and remained dependant on their masters even after their service was over.
  - iii. As indentured servants could easily leave their masters and seamlessly fit in with other members of society, indentured servitude became an unreliable source of labor.

#### 4. Frustrated Freeman and Bacon's Rebellion

- a. As time passed, more and more freemen were left without money or land, frustrated over their misfortune. Virginia governor **William Berkeley** lamented over this multitude of poor, landless men, yet refused to offer help or compensation.
- b. Tensions came to a breaking point in 1676 when **Nathaniel Bacon** organized a militia of freemen and attacked natives and tore apart Jamestown, enraged over Berkeley's refusal to act against brutal native attacks or even compensate the poor freemen.
- c. Berkeley crushed this rebellion after Bacon's death, but this event represented the first signs of the split between wealthy plantation owners and landless former servants.
- d. Following this event, landowners set their eyes on Africa, seeking a labor force which they could control more tightly.

#### 5. Colonial Slavery

- a. During early settlement, participating in the slave trade was very costly, and only wealthy plantation owners in the South and West Indies could afford to import them. However, in 1698 the **Royal African Colony**, responsible for transporting slaves to America, lost its monopoly on the slave trade, allowing colonists to obtain slaves at a far cheaper price.
  - i. This development combined with the unreliability and risk of owning indentured servants drove slave trade up to the point where slaves comprised large portions of America's population, unlike the small percentage of slaves within the population before.
  - ii. Slaves were transported to America via the **middle passage**, a treacherous route which saw the death of up to 20% of transported slaves just on the journey to America.
- b. After slaves were transported, "flesh merchants" auctioned them off in slave trade markets in the Middle and Southern colonies.

**The Most Beautiful Girl in the World** Sarah Banet-Weiser, 2023-04-28 Sarah Banet Weiser complicates the standard feminist take on beauty pageants in this intriguing look at a hotly contested but enduringly popular American ritual. She focuses on the Miss America pageant in particular, considering its claim to be an accurate representation of the diversity of contemporary American women. Exploring the cultural constructions and legitimations that go on during the long process of the pageant, Banet Weiser depicts the beauty pageant stage as a place where concerns about national identity, cultural hopes and desires, and anxieties about race and gender are crystallized and condensed. The beauty pageant, she convincingly demonstrates, is a profoundly political arena deserving of serious study. Drawing on cultural criticism, ethnographic research, and interviews with pageant participants and officials, *The Most Beautiful Girl in the World* illustrates how contestants invent and reinvent themselves while articulating the female body as a national body. Banet Weiser finds that most pageants are characterized by the ambivalence of contemporary liberal feminism, which encourages individual achievement, self-determination, and civic responsibility while simultaneously promoting very conventional notions of beauty. The book explores the many different aspects of the Miss America pageant, including the swimsuit, the interview, and the talent competitions. It also takes a closer look at some extraordinary Miss Americas, such as Bess Myerson, the first Jewish Miss America; Vanessa Williams, the first African American Miss America; and Heather Whitestone, the first Miss America with a disability.

hundredth anniversary of Shakespeare's death were held amid the global upheaval of the First World War. As empires battled for world domination and nations sought self-determination, diverse communities vied to claim Shakespeare as their own to underpin their sense of collective identity and cohesion. Unearthing previously unknown Tercentenary events in Europe, the British Empire and the USA, Monika Smialkowska demonstrates that the 1916 Shakespeare commemorators did not speak with one unified voice. Tributes by marginalised social, ethnic and racial groups often challenged the homogenising narratives of the official celebrations. Rather than the traditionally patriotic Bard used to support totalising versions of national or imperial identity, this study reveals Shakespeare as a site of debate and contestation in which diverse voices, local and global, nationalist and universalist, militant and pacifist, combined and clashed in a fascinating open-ended dialogue. **The**

**Irish Celt** Mairéad Carew, 2018-03-29. The Quest for the Irish Celt is the fascinating story of Harvard University's five-year archaeological research programme in Ireland during the 1930s to determine the racial and cultural heritage of the Irish people. The programme involved country-wide excavations and the examination of prehistoric skulls by physical anthropologists and was complemented by the physical examinations of thousands of Irish people from across the country, measuring skulls, nose shape and grade of hair colour. The Harvard scientists' mission was to determine who the Celts were, what was their racial type and what element in the present-day population represented the descendants of the earliest inhabitants of the island. Though the Harvard Mission was hugely influential, there were theories of eugenics involved that would shock the modern reader. The main adviser for the archaeology was Adolf Mahr, Nazi and Director of the National Museum, 1934-39. The overall project was managed by Earnest A. Hooton, famed Harvard anthropologist whose theories regarding biological heritage would now be readily condemned for their racism. Mairéad Carew explores this extraordinary archaeological mission, examining its historic importance for Ireland and Irish America, its landmark findings and the unseemly activities that lay just beneath the surface. **The New York Times Index**, 1914. **Cosmetic Surgery** Cressida J.

Heyes, 2016-05-13. Practices of cosmetic surgery have grown exponentially in recent years in both over-developed and developing worlds. What comprises cosmetic surgery has also changed with a plethora of new procedures and an extraordinary rise of non-surgical operations. As the practices of cosmetic surgery have multiplied and diversified, so have feminist approaches to understanding them. For the first time, leading feminist scholars including Susan Bordo, Kathy Davis, Vivian Sobchack and Kathryn Pauly Morgan have been brought together in this comprehensive volume to reveal the
