*Class Matters* Simon Middleton,Billy G. Smith,2011-06-03 As a category of historical analysis class is dead or so it has been reported over the past two decades The contributors to Class Matters contest this demise Although differing in their approaches they all agree that socioeconomic inequality remains indispensable to a true understanding of the transition from the early modern to modern era in North America and the rest of the Atlantic world As a whole they chart the emergence of class as a concept and its subsequent loss of analytic purchase in Anglo American historiography The opening section considers the dynamics of class relations in the Atlantic world across the seventeenth and eighteenth centuries from Iroquoian and Algonquian communities in North America to tobacco lords in Glasgow Subsequent chapters examine the

cultural development of a new and aspirational middle class and its relationship to changing economic conditions and the articulation of corporate and industrial ideologies in the era of the American Revolution and beyond A final section shifts the focus to the poor and vulnerable tenant farmers infant paupers and the victims of capital punishment In each case the authors describe how elite Americans exercised their political and social power to structure the lives and deaths of weaker members of their communities An impassioned afterword urges class historians to take up the legacies of historical materialism Engaging the difficulties and range of meanings of class the essays in *Class Matters* seek to energize the study of social relations in the Atlantic world

**Racial and Ethnic Economic Inequality** Samuel L. Myers,2006 In a world where racial tensions and racial and ethnic inequality seem to be increasing it is instructive to look back over the decade of the 1990s to examine what academic researchers have had to say about the global nature of race racism and racial inequality Almost every country with a multiethnic population faces these problems This collection of essays provides an eclectic but accessible mix of readings on perspectives from such countries as Australia Russia France Chile West Africa India and the United States Emphasis is placed on positive strategies to help reduce or eliminate economic inequality The implications for the demise of affirmative action programs are also discussed Pre dating the United Nation s World Conference on Racism the readings anticipate many of the recommendations and insights that have now come to be the core of international strategies This collection will prove valuable to all those concerned with ending racism and achieving racial and ethnic economic equality AP\* U.S. History Review and Study Guide for American Pageant 12th edition Mill Hill Books, **From Loyalists to Loyal Citizens** Valerie H.
