The American Tradition in Literature ,1981 Perkins,1998 *Resources in Education* ,2000-04 **The American Tradition in Literature** George B. Perkins,Barbara Perkins,1998 **Where "Indians" Fear to Tread?** Fabienne C. Quennet,2001 The two fields of contemporary Native American literature and culture exist in the tension between two literary traditions the Native oral and literary tradition and the modern Western mainstream literary influence In her North Dakota quartet *Love Medicine* 1984 *The Beet Queen* 1986 *Tracks* 1988 *The Bingo Palace* 1994 Native American mixedblood author Louise Erdrich b 1954 exemplifies where and how these traditions meet and interact A postmodern reading of the quartet shows that Native American authors and literary critics alike need not be afraid to tread into postmodernism since an interpretation from this perspective opens up the possibility of freeing Native American literature from the limiting label of ethnic or minority literature and of establishing it as a vital part of American literature This postmodern interpretation of Louise Erdrich s quartet offers a discussion of the theoretical issues involved in the context of ethnic writing and its relation to postmodernism as well as an analysis of her intricate narrative strategies in particular her use of multiple perspectives and of intertextual techniques The main part of the interpretation consists of a reading of postmodern concepts such as magical realism carnivalesque humor the relationship between reader and text gender roles and sexual identities history and textuality the trickster figure and games and chance as can be found in Louise Erdrich s North Dakota quartet *The American Tradition in Literature* ,1967 *The Concise Oxford Companion to African American Literature* William L. Andrews,Frances Smith Foster,Trudier Harris,2001-02-15 A breathtaking achievement this Concise Companion is a suitable crown to the astonishing production in African American literature and criticism that has swept over American literary studies in the last two decades It offers an enormous range of writers from Sojourner Truth to Frederick Douglass from Zora Neale Hurston to Ralph Ellison and from Toni Morrison to August Wilson It contains entries on major works including synopses of novels such as Harriet Jacobs s *Incidents in the Life of a Slave Girl* Richard Wright s *Native Son* and Lorraine Hansberry s *A Raisin in the Sun* It also incorporates information on literary characters such as Bigger Thomas Coffin Ed Johnson Kunta Kinte Sula Peace as well as on character types such as Aunt Jemima Brer Rabbit John Henry Stackolee and the trickster Icons of black culture are addressed including vivid details about the lives of Muhammad Ali John Coltrane Marcus Garvey Jackie Robinson John Brown and Harriet Tubman Here too are general articles on poetry fiction and drama on autobiography slave narratives Sunday School literature and oratory as well as on a wide spectrum of related topics Compact yet thorough this handy volume gathers works from a vast array of sources from the black periodical press to women s clubs making it one of the most substantial guides available on the growing exciting world of African American literature *Americanness* Simon J. Bronner,2021-08-11 *Americanness* Inquiries into the Thought and Culture of the United States analyzes several core themes that connect Americans because of and despite their pronounced diversity The book investigates shared ideas and ideals

such as individualism mobility materialism and future orientation that drive an overarching American worldview Simon J Bronner begins with ideas of space and time as they formed and changed through the history of the United States before moving to the emergence of modern American culture He examines reasons America is characterized as having a victory culture that extends to the American legal military and business complexes This victory culture is further analyzed by looking at the country s relationship with the game of football a sport that thrives in America but has not caught on in other countries Finally the volume probes American consumerism driven by a desire for individual prosperity in a supposedly egalitarian society Using interdisciplinary approaches drawn from psychology sociology ethnology and history Bronner seeks explanations for people invoking and evoking ideas that they perceive as American This book would be an invaluable addition to courses on American history sociology cultural studies and American studies Ethnic Passages Thomas J.

Ferraro,1993-04-15 Farraro English Duke U defends immigration narratives from their reputation of having stereotyped characters and plots He argues that they are manifestations of a rebirth paradigm and draw on all the literary tools employed by other genres Annotation copyright by Book News Inc Portland OR **Directory of Distance Learning Opportunities**

Commission. Library,1949 *Research in Education* ,1974 *Integrating Service Learning and Multicultural Education in Colleges and Universities* Carolyn R. O'Grady,2014-04-08 The focus of this book is on the ways in which service learning and multicultural education can and should be integrated so that each may be strengthened and consequently have greater effect on educational and social conditions It offers a significant attempt to forge a dialogue among practitioners of service learning and multicultural education The overriding theme is that service learning without a focused attention to the complexity of racial and cultural differences can reinforce the dominant cultural ideology but academic work that seeks to deconstruct these norms without providing a community based touchstone isolates students and schools from the realities of the larger communities of which they are part Although the chapter authors provide varied perspectives on the benefits and challenges of integrating multicultural education and service learning they all are committed to a vision of education that synthesizes both action and reflection None of the authors pretend to have all the answers to what this integration should look like nor do

they believe that today's social problems are easily ameliorated through education. Rather they share theories, practices, failures and triumphs in order to further the conversation about the importance of aligning what educators say about the world and how they act in and on it. These authors share the view that multicultural education is truly transformative for students only when it includes a community action component and likewise service learning is truly a catalyst for change only when it is done from a multicultural and socially just perspective. It is their hope that the ideas explored in this book will further the work of those who share a commitment to the integration of action and reflection.

Teacher's Manual for Currents in Literature, 1968 **The American Tradition in Literature** Mark Stanley Dawson, George B. Perkins, 2007

International Studies in Honor of Tomás Rivera Julián Olivares, 1986-01-01 Tomás Rivera author of the award winning novel *Y no se lo tragó la tierra* passed away in 1985 and is commemorated in recollections by Rolando Hinojosa and Américo Paredes and studies of his prose and poetry by leading critics of Chicano literature.

Literature, Criticism, and the Theory of Signs Victorino Tejera, 1995-01-01 Following Peirce in his non-reductive understanding of the theory of signs as a branch of aesthetics this book reconceptualizes the processes of literary creation, appreciation and reading in semiotic terms. Here is a carefully developed theory of what sort of criteria serve to distinguish apposite from inapposite readings of literary works of art. Given Peirce's triadic account of signification it enlarges Aristotle's view of mimesis as expressive making into an understanding of literary works as deliberately designed sign systems belonging to Peirce's eighth class of signs. In parallel with Bakhtin's account of the dialogical nature of literary work and its success in exposing misreadings of Dostoyevsky this work categorizes in precise theoretical terms what is wrong with the non-dialogical readings which treat Plato's dialogues as doctrinal tractates. As a study in literary theory finally and on the basis of apt distinctions between exhibitively active and assertive judgments this book re-demarcates and distinguishes the discipline of literary criticism from that of literary theory and both of these from the work of literary creation itself.

No G.O.D.s in the Classroom: Inquiry and secondary social studies John T. Mallan, Richard H. Hersh, 1972

Tradition, Literature and Politics in East-Central Europe Carl Tighe, 2020-12-30 Milan Kundera warned that in the states of East-Central Europe attitudes to the west and the idea of Europe were complex and could even be hostile. But few could have imagined how the collapse of communism and membership of the EU would confront these countries with a life that was suddenly and disconcertingly modern and which challenged sustaining traditions in literature, culture, politics and established views on identity. Since the countries of East-Central Europe joined the European Union in 2004 the politicians and oppositionists of the centre-left who once led the charge against communism have often been forced to give way to right-wing authoritarian populist governments. These governments while keen to accept EU finance have been determined to present themselves as protecting their traditional ethno-national inheritance, resisting foreign interference, stemming the gay invasion, halting Islamic replacement and reversing women's rights. They have blamed Communists, liberals, foreigners, Jews and Gypsies, revised abortion laws

tampered with their constitutions to control the Justice system and taken over the media to an astonishing degree By 2019 amid calls for the suspension of their voting rights both Poland and Hungary had been taken to the European Court of Justice and the European Parliament and had begun to explore ways to put conditions on future EU funding This book focuses on the interface between tradition literature and politics in east central Europe focusing mainly on Poland but also Hungary and the Czech Republic It explores literary tradition and the role of writers to ask why these left liberals who were once ubiquitous in the struggles with communism are now marginalised often reviled and almost entirely absent from political debate It asks in what ways the advent of capitalism normalised literature and what the consequences might be It asks whether the rise of chauvinism is normal in this part of the world and whether the literary traditions that helped sustain independent political thought through the communist years now instead of supporting literature feed nationalist opinion and negative attitudes to the idea of Europe

John Wesley, Practical Divinity and the Defence of Literature Emma Salgård Cunha, 2017-12-12

John Wesley 1703 1791 leader of British Methodism was one of the most prolific literary figures of the eighteenth century responsible for creating and disseminating a massive corpus of religious literature and for instigating a sophisticated programme of reading writing and publishing within his Methodist Societies John Wesley Practical Divinity and the Defence of Literature takes the influential genre of practical divinity as a framework for understanding Wesley s role as an author editor and critic of popular religious writing It asks why he advocated the literary arts as a valid aspect of his evangelical theology and how his Christian poetics impacted upon the religious experience of his followers

Collage and Literature

Scarlett Higgins, 2018-07-27 Collage and Literature analyzes how and why the history of literature and art changed irrevocably beginning in the early years of the twentieth century and what that change has meant for late modernism and postmodernism Starting from Pablo Picasso s 1912 gesture breaking the fundamental logic of representation of pasting a piece of oilcloth onto a canvas and moving up to Kenneth Goldsmith s 2015 reading of an autopsy report of an unarmed young black man shot by police which he framed as a poem entitled Michael Brown s Body this volume moves through a series of case studies encapsulating issues of juxtaposition and framing the central ways identify collage Its thesis is that collage and in fact only collage meaningfully overcomes formal and generic boundaries between the literary and the non literary The overwriting of these traditional boundaries happens in the service of collage s anti narrative drive a drive that may be in turn interruptive or destructive The expansion of collage s horizons broadly to include the use of radical juxtaposition in the arts reveals a surprisingly wide range of American artists and writers using the logic of juxtaposition as they imagine new worlds disrupt accepted narratives about society and art and create meaning through form as much as through paraphrasable content In addressing a wide range of contested issues recent artists realize the shocking force of collage By recovering this shock Collage and Literature restores collage to its multimedia origins in order to reveal its powerful and political affects
