American Tradition In Literature Perkins 12th:

The American Tradition in Literature George B. Perkins, Barbara Perkins, 2007 **A Disturbing and Alien Memory** Douglas L. Mitchell, 2008-12

In the late nineteenth century as the study of history shifted from the domain of letters into the social sciences novelists in the North and the West generally turned away from writing history. Many southern novelists and poets however continued to undertake historical writing as an extension of their art form. What made southern literary figures differ from their northern and western counterparts? In *A Disturbing and Alien Memory* Douglas L. Mitchell addresses this intriguing question by tracing a line of southern writers from the early nineteenth century to the mid twentieth finding that an obsessive need to defend the South and the oft noted rage to explain drove some creative writers to continue to make forays into history and biography in an effort to enter a more public sphere where they could more decisively influence interpretations of the past. In the Romantic history of the nineteenth century Mitchell explains men of letters saw themselves as keepers of memory whose renderings of the past could help shape the future of the nation. He explores the historical writing of William Gilmore Simms to trace the failure of Romantic nationalism in the growing split between North and South then turns to Thomas Nelson Page's effort to resurrect the South as a spiritual nation with a redeemed history after the Civil War. Mitchell juxtaposes their work with that of William Wells Brown the pioneering African American historian and novelist who used the authority of history to write blacks into the American story. Moving into the twentieth century Mitchell analyzes the historical component of the Southern Agrarian project focusing on the tension between modernist aesthetics and polemical aims in Allen Tate's Civil War biographies. He then traces a path toward a viable historical vision Robert Penn Warren's recovery of a tragic understanding and the creation of a compelling historical art in the work of Shelby Foote. Throughout Mitchell examines the peculiar dilemma of southern writers the changing nature of history and its relation to the realm of letters and the question of public authority shedding light on several neglected texts in the process including Simms's *The Sack and Destruction of Columbia* S. C. Brown's *The Negro in the American Rebellion* Tate's *Jefferson Davis* and Warren's *John Brown*. Offering a new perspective on a perennial debate in southern letters *A Disturbing and Alien Memory* provides a critical framework for a neglected genre in the southern literary canon.

The Legacy of Robert Penn Warren David Madden, 2000-08 Robert Penn Warren was unique among twentieth century American writers for having achieved excellence in a broad and assorted range of genres poems novels plays critical works historical essays personal essays biography and innovative textbooks. In this collection of essays critics and poets among the finest Warren scholars assess Warren's legacy within his various genres and illuminate his centrality to twentieth century American culture. Although Warren was best known for his novel *All the King's Men* the fact that most of these essays focus on his poetry attests to the urgency these poets and scholars feel about the need to call attention to this relatively neglected aspect of his work. Although their approaches and themes are varied the pieces in *The Legacy of Robert Penn Warren* are united in their assertion that the

writer's true legacy is that he was in a century of increasing specialization a myriad minded Renaissance man

Anthologizing Poe Emron Esplin, Margarida Vale de Gato, 2020-08-06 This collection explores how anthologizers and editors of Edgar Allan Poe play an integral role in shaping our conceptions of Poe as the author we have come to recognize, revere and critique today. In the spheres of literature and popular culture, Poe wields more global influence than any other U.S. author. This influence, however, cannot be attributed solely to the quality of Poe's texts or to his compellingly tragic biography. Rather, his continued prominence as a writer owes much to the ways that Poe has been interpreted, portrayed and packaged by an extensive group of mediators ranging from anthologizers, editors, translators and fellow writers to literary critics, filmmakers, musicians and illustrators. In this volume, the work of presenting Poe's texts for public consumption becomes a fascinating object of study in its own right, one that highlights the powerful and often overlooked influence of those who have edited, anthologized, translated and adapted the author's writing over the past 170 years. [The Latest Early American Literature](#) R. C. De Prosopo, 2016-01-21 The Latest Early American Literature, according to readers for the University of Delaware Press, is a collection of polemics and manifestoes. In it, R. C. De Prosopo bids to follow in the footsteps of the two rare early Americanist dissenters whom Philip F. Gura once distinguished as prophets without honor in the field: William Spengemann and Michael Colacurcio. The book contends that a supposedly retired nationalist modernist telos continues to reign in most of the latest scholarship and even more influentially in all of the current literary histories and anthologies, no matter how expansive in gender, ethnic, racial and hemispheric inclusiveness they profess to be. Old telos in particular that old American exceptionalist one can be cunning. Updating and expanding upon essays written over the past thirty years, De Prosopo proposes not only negatively to critique how the latest scholarly receptions of early American literature differ insignificantly from the earlier ones but positively to propose how a transnationalist concession that, as a neocolonial culture, America's lags behind that of Europe might advance postmodern historiography by radically repositioning the past as no longer the present's diachronic predecessor but to quote Lyotard's semiotics, its synchronic differend. Closer to earth, De Prosopo tries at the same time to remain mindful of the pedagogical imperative that ultimately to save the texts of early American literature will require making them legible to average non-specialist, never to become specialist, undergraduate general education students. To facilitate this, he introduces in the concluding section of The Latest Early American Literature what will probably be taken as its most radical intervention: the redefinition of Edgar Allan Poe as an early American writer.

A Class of Its Own Laura Hapke,Lisa A. Kirby,2009-01-14 A Class of Its Own positions important and rediscovered American social protest authors within both a scholarly and student centered context The volume draws on the expertise and pedagogy of established and younger scholars who move gracefully from theories of what makes a text working class to how studies of class empower college teachers and courses Among the authors discussed in the volume's essays and prominent in the book's syllabi section are Zora Neale Hurston Stephen Crane Agnes Smedley and Ana Castillo **The Last Practicing American** Michael T. Wagner,2014-07-22 This book was not written for the weak kneed spineless politically correct non practicing American It is instead for those of us who have witnessed the methodical dismantling of traditional morals and values thus exhausting the limits of our tolerance The contents of this book will detail our cultural mutation which applauds deviance rewards failure and elects the corrupt in terms designed to wake up the lethargic patriot in all of us in an effort to re enforce the urgency in our resolve so we may reverse our current descending cultural trajectory thus sparing future generations from an otherwise inevitable implosion Re-viewing James Baldwin Daniel Quentin Miller,2000 This new collection of essays presents a critical reappraisal of James Baldwin's work looking beyond the commercial and critical success of some of Baldwin's early writings such as Go Tell it on the Mountain and Notes of a Native Son Focusing on Baldwin's critically undervalued early works and the virtually neglected later ones the contributors illuminate little known aspects of this daring author's work and highlight his accomplishments as an experimental writer Attentive to his innovations in style and form Things Not Seen reveals an author who continually challenged cultural norms and tackled matters of social justice sexuality and racial identity As volume editor D Quentin Miller notes what has been lost is a complete portrait of Baldwin's tremendously rich intellectual journey that illustrates the direction of African American thought and culture in the late twentieth century This is an important book for anyone interested in Baldwin's work It will engage readers interested in literature and African American Studies Author note D Quentin Miller is Assistant Professor of English at Gustavus Adolphus College Saint Peter MN **The Seventies in America** John C.
