Singleton Copley: In America, 1738-1774 Jules David Prown, 1966 *Sex and the Eighteenth-Century Man* Thomas Foster, 2007-09-01 With few exceptions sex is noticeably absent from popular histories chronicling colonial and Revolutionary America. Moreover, it is rarely associated specifically with early American men. This is in part because sex and family have traditionally been associated with women, while politics and business are the historic province of men. But Thomas Foster turns this conventional view on its head. Through the use of court records, newspapers, sermons, and private papers from Massachusetts, he vividly shows that sex, the behaviors, desires, and identities associated with eroticism, was a critical component of colonial understanding of the qualities considered befitting for a man. *Sex and the Eighteenth-Century Man* begins by examining how men as heads of households held ultimate responsibility for sex, not only within their own marriages but also for the sexual behaviors of dependents and members of their households. Foster then examines the ways sex solidified bonds in the community, including commercial ties among men, and how sex operated in courtship and social relations with women. Starkly challenging current views about the development of sexuality in America, the book details early understandings of sexual identity and locates a surprising number of stereotypes, until now believed to have originated a century later, among them the black rapist and the unmanly sodomite figures that serve to reinforce cultural norms of white male heterosexuality. As this engrossing and surprising study shows, we cannot understand manliness today or in our early American past without coming to terms with the oft-hidden relationship between sex and masculinity. *Masters in art*, 1904

A New Literary History of America Greil Marcus, Werner Sollors, 2012-05-07 America is a nation making itself up as it goes along, a story of discovery and invention unfolding in speeches and images, letters and poetry, unprecedented feats of scholarship and imagination. In these myriad, multiform, endlessly changing expressions of the American experience, the authors and editors of this volume find a new American history. In more than two hundred original essays, *A New Literary History of America* brings together the nation's many voices. From the first conception of a New World in the sixteenth century to the latest re-envisioning of that world in cartoons, television, science fiction, and hip hop, the book gives us a new kaleidoscopic view of what "Made in America" means. Literature, music, film, art, history, science, philosophy, political rhetoric, cultural creations of every kind appear in relation to each other and to the time and place that give them shape. The meeting of minds is extraordinary as T. J. Clark writes on Jackson Pollock, Paul Muldoon on Carl Sandburg, Camille Paglia on Tennessee Williams, Sarah Vowell on Grant Wood's American Gothic, Walter Mosley on hard-boiled detective fiction, Jonathan Lethem on Thomas Edison, Gerald Early on Tarzan, Bharati Mukherjee on *The Scarlet Letter*, Gish Jen on *Catcher in the Rye*, and Ishmael Reed on Huckleberry Finn. From Anne Bradstreet and John Winthrop to Philip Roth and Toni Morrison, from Alexander Graham Bell and Stephen Foster to Alcoholics Anonymous, Life, Chuck Berry, Alfred Hitchcock, and Ronald Reagan, this is America singing, celebrating itself and becoming something altogether different, plural, singular, new.
