*English literary afterlives* Elisabeth Chaghafi, 2019-11-19 *English Literary Afterlives* traces life narratives of early modern authors created for them after their deaths by readers or publishers who retrospectively tried to make sense of the author's life and works. In a series of case studies of the reception history of major poets Sidney Spenser Donne Herbert as well as Robert Greene the first celebrity author within a generation of their deaths it shows how those authors were posthumously fashioned and refashioned. It argues that during the early modern period there is a gradual movement towards biographical readings that attempt to find the author in the works which in turn led to the emergence of written lives that consider poets not in terms of their public lives but in terms of their poetic activity i.e. the beginnings of literary biography. Will be of interest to students and scholars of several canonical early modern authors.

*Catholic Bioethics and the Gift of Human Life, 2nd Edition* William May, 2008-07-25 In this revision of his already classic text William May shows us once again the wisdom of the Catholic Church's moral tradition in its application to contemporary bioethics. Illuminating and engaging and with the attention to nuance that marks all of May's writing Edward J. Furton M.A. Ph.D. Ethicist and Director of Publications The National Catholic Bioethics Center. With so much bioethical thinking supporting the culture of death I can think of no better champion of a culture of life than Professor William E. May. Professor May has given us a book which is useful not only for its masterful summery of the moral magisterium on bioethics but also for its treatment of such issues as contraception artificial reproduction the care of the dying human experimentation and the definition of death and organ transplants. Dr. Mark S. Latkovic Associate Professor of Moral Theology Sacred Heart Major Seminary. What the Church teaches and why on issues of euthanasia in vitro fertilization genetic counseling assisted suicide living wills persistent vegetative state organ transplants and more.
