

MACH 1

For 1995, the Mach 1 is virtually all new. Like the Z, the engine in the Mach 1 is mounted low in its new aluminum frame for solid handling. For increased stopping performance that operates with a light touch, Ski Doo fitted a hydraulic brake to this snowmobile.

Motivation for the improved Mach 1 is the Rotax 670 - a 669cc, liquid-cooled,

The Mach 1 669cc twin is fitted with dual tuned exhaust pipes that enhance power output.

Rotary intake valve-equipped twin that makes most triples run for cover. While its new, big VM24 carbs feed each cylinder, twin RAVE valve port modifiers and individually tuned dual exhaust pipes do away with the spent charge. If you want to experience Mach-type performance, this is the only twin made to fill that order.

If you're in the mood for a quick ride, the T.R.A. clutch on Mach 1 lets you easily adjust clutch engagement to tune starts for your riding style.

For 1995 the Mach 1 also includes big, backlit analog gauges, heated grips and a heated throttle lever.

Matching all this performance equipment is the look and function of the new aerodynamic cab, low windshield and graphics. This sled produces a powerful statement even when parked.
