Teaching English and Maths in FE David Allan,2017-05-22 This book is a guide for all teachers in the FE and Skills Sector regardless of their discipline It explores how

FE teachers can address the mathematics and English needs of all learners to redress the skills gap that is a current focus. The text explores what works in the sector, examining the barriers to learning and how all learners can be included. It takes a focused look at what works for the vocational learners who have not succeeded in a school setting and helps tackle the problem of low motivation in learners. The text goes beyond simply providing strategies to follow and includes background theory and detailed case studies to enhance your understanding of different approaches. Army and Navy Journal, 1924
