**Locating Heisei in Japanese Fiction and Film** Marc Yamada, 2019-10-29 This book provides the first interdisciplinary examination of the popular fiction and film of the lost decades of Japan's Heisei period 1989-2019 Presenting original analysis of major Heisei writers filmmakers and manga artists the chapters examine the work of Urasawa Naoki Kurosawa

Kiyoshi Murakami Haruki and Shinkai Makoto among others Through the work of these cultural figures the book also explores the struggle to define the history of Heisei three decades of economic stagnation social malaise and natural disaster In particular it explores the dissonance between the dominant history of Japan s recent past and the representation of this past in the popular imagination of the period In so doing this book argues that traumatic events from the years leading up to Heisei complicate the narration of a cohesive sense of history for the period requiring works of fiction and film to explore new connections to the past Incorporating literary and film theory to assess the works of culture Locating Heisei in Japanese Fiction and Film will be useful to students and scholars of Japanese culture society and history Haruki Murakami and the Search for Self-Therapy Jonathan Dil,2022-02-24 Haruki Murakami a global literary phenomenon has said that he started writing fiction as a means of self therapy What he has not discussed as much is what he needed self therapy for This book argues that by understanding more about why Murakami writes and by linking this with the question of how he writes readers can better understand what he writes Murakami s fiction in other words can be read as a search for self therapy In five chapters which explore Murakami s fourteen novels to date this book argues that there are four prominent therapeutic threads woven through Murakami s fiction that can be traced back to his personal traumas most notably Murakami s falling out with his late father and the death of a former girlfriend and which have also transcended them in significant ways as they have been transformed into literary fiction The first thread looks at the way melancholia must be worked through for mourning to occur and healing to happen the second thread looks at how symbolic acts of sacrifice can help to heal intergenerational trauma the third thread looks at the way people with avoidant attachment styles can begin to open themselves up to love again the fourth thread looks at how individuation can manifest as a response to nihilism Meticulously researched and written with sensitivity the result is a sophisticated exploration of Murakami s published novels as an evolving therapeutic project that will be of great value to all scholars of Japanese literature and culture **1Q84** Haruki Murakami,2012 The Oxford Handbook of Gabriel García Márquez Gene H.
