Wasser, 2021-08-16 I just cannot write or I am not a good writer are familiar complaints from students in

academia Many of them claim they cannot express themselves clearly in written text and their lack of this skill impedes them in their academic career In this book Nancy A Wasser argues that teachers can help solve this when they start viewing writing not as secondary to reading but as the equally important side of the same coin Those who cannot read will not be able to write Wasser explains how teaching and regular practicing of writing skills from an early age onwards helps children grow into students who are self aware of their voices By employing narrative as a process of learning to write and a way to read teachers can teach children the art of writing while also making children more aware of their own constructions of narrative Combining the focus on individual and group expression in writing lessons students can trace and reflect on their own life transformations through their writing process Good writers are not born that way but made through effort and practice Changes in curriculum may not only lead to better expressed citizens but also to more balance between teacher and children voices

How to Teach Writing Through Reading the Classics Gr. 7-9 Penny Nutbrown, Learning to write is a complex process and learning to write well is not a goal that can be achieved if the learner is working without examples some clear instruction of how and why language works as it does and then opportunities to practice are necessary My goal in writing this manual was to provide young people with the preceding In this manual the basic elements of grammar and composition are laid out in a series of steps that takes the pupil from being able to identify what a word is understand the role of that word in a sentence create sound sentences and paragraphs of her own and eventually put all those skills together to be able to express herself clearly and meaningfully Throughout the pupil is provided with both opportunities to practice and play with the concepts about which she is learning and most important examples of superior writing drawn from a wide selection of quality classic English language literature It is hoped that by proceeding thus the young person will not only become more adept at writing but also develop an appreciation for good books and pursue reading for pleasure The lessons in this manual are set out in an order to assist the pupil to develop an understanding of the fundamentals of language before proceeding to matters of sentence structure grammar and paragraph writing However any exercise in this book could be used out of context depending on the needs of the pupil and or the goals of the instructor The important thing is that the pupil always is allowed to use the means of example instruction and practice to achieve the desired objectives

Reading Outcomes read from a wide variety of literary texts both for information and for enjoyment use simple organizational structures ie headings layout as a means of locating specific information use punctuation ie periods commas question marks and capitals to recognize separations between ideas in a text demonstrate an understanding of such stylistic features as quotation marks and paragraphing as means of organizing actions and ideas in a narrative text Writing Outcomes use simple and compound sentences with correct punctuation and use of capitals organize sentences and paragraphs logically to enhance comprehension of the reader use a variety of resources including the computer to check spelling and points of grammar in a piece of personal writing organize writing creatively and logically for specific purposes
